Selkie Rescue Data Recovery Bonus with Vista

Discount to help new Vista Owners

February 8th 2007

Tugboat Enterprises Ltd the developers of the award winning *Selkie Rescue Data Recovery* are offering a 25% discount to any customer who has purchased the new Microsoft Windows application *Vista*.

With reports circulating that the new *Vista* program is vulnerable to some viruses and that the virus protection programs of the two largest firms may not properly run on *Vista* (*Microsoft's own antivirus fails to secure Vista, ZDNet*) Tugboat Enterprises Ltd has stepped forward with this generous offer.

"I have a great deal of respect for Microsoft and their operating systems," said CEO Judi Tyabji Wilson, "but all of us in the software development business know that unforeseen problems will arise in new operating system. We are simply here to help."

Selkie Rescue, created and owned by Tugboat Enterprises Ltd, solves a major problem faced by more than 1 billion owners of PCs and laptops - lost data due to computer crashes from viruses or bad software. Instead of sending your computer or laptop to a repair centre and losing significant time & money, *Selkie* recovers your data within 10 minutes, using 5 mouse clicks or keystrokes - all for \$99.99. *Selkie Rescue Data Recovery* does not require Windows to be functional in order to recover data. It is fast and very simple to use; Tucows has labeled it a "must have application"

"Selkie Rescue Data Recovery is a valuable tool that frankly we believe should be included with every computer sold with a Windows application," said Vice President Sales Nathan Potechin. "It's not something you will need everyday, but when your system fails, and statistically we know at some point, usually when you need it most, it will, then you will be thankful you have Selkie Rescue. It is one of those critical programs that can save you a lot."

A free trial version of Selkie Rescue data recovery can be downloaded from the Tugboat Enterprises' website at: www.tugboatenterprises.com and if there are questions you would like to ask before trying or buying, log-in to the forum where a Tugboat technician will always be happy to answer.

"We are delighted with the response to Selkie Rescue," commented Nathan Potechin, V.P. sales. "Our new web site and aggressive sales campaign in 2007 will work well with the first release in the Selkie Suite."

Selkie Rescue is available at www.tugboatenterprises.com for US\$99.99. Enterprise and bulk licensing is available by contacting Nathan Potechin at 1-888-688-9199 or www.tugboatenterprises.com/contact.php

More than a billion owners of PCs and laptops face the same problem every year — catastrophic desktop and laptop PC computer crashes. When crashes happen, no matter what the cause, there is only one important priority — recovering the data and files stored on a desktop or laptop PC that is suddenly inaccessible. Selkie Rescue is a data recovery and disaster recovery utility for Windows desktop and laptop PCs. There is nothing more important than the data created on a daily basis at home or at work. When the operating system won't boot there's only one priority. Documents, spreadsheets, databases, graphics, photos, music, videos, web pages, text files and everything else has to be rescued so that life and business can continue.

Selkie Rescue System Requirements

Any Pentium or equivalent CPU (Intel, AMD) capable of running Windows 95 through Vista; 16MB available system RAM; VGA graphics chip and color monitor; CD-R drive and blank recordable CD required to burn the Selkie Rescue CD; any active network connected to the PC being rescued.
