BOGO Printing Announces Full Color Eco-Friendly Printing at Affordable Prices

Print Responsibly, Go BOGO – Best Online Green Opportunities

July 27, 2010, ORLANDO, FL – BOGO Printing (www.bogoprinting.com), your newest online printing resource, is focused on providing the highest quality, environmentally conscious printing at affordable prices. BOGO Printing was founded to provide consumers with superior quality printing while caring for the environment. All products are printed on recycled content materials with a High Recycled Option (85+% recycled content) for a nominal upgrade.

“BOGO Printing integrates “Buy One, Get One” marketing promotions with an environmental position to create the best online green opportunities,” said Joe Forgét, President/CEO. “Our products are printed on high-quality recycled paper printing stocks to provide beauty while remaining eco-friendly. BOGO Printing appreciates the opportunity to be your single source for all print media.”

Why sacrifice the environment for price or quality? Responsible organizations can provide high-quality, environmentally-friendly green printing at a competitive cost. To help ensure a continual flow of recycled material, BOGO Printing recycles almost all of our paper waste from our print process. This recycled material is later remanufactured into quality paper stocks used for all of your printing needs, including business card printing, catalog printing, brochure printing, and even greeting card and postcard printing.

Equipped with offset and digital presses, we offer quick turnaround with competitive costs. This allows us to provide customers with consistent high-quality printing at affordable prices. BOGO Printing offers complementary support services such as design, list acquisition, and direct mailing processing to help businesses grow. Whatever you're printing needs, from business card printing to full color brochure printing to postcard printing services and beyond, BOGO Printing has the solution.

About BOGO Printing:

BOGO Printing (www.bogoprinting.com) is focused on providing high quality, environmentally friendly printing at affordable prices. Our "Buy One, Get One" marketing promotions provide the best online green opportunities. You can conveniently order business cards online and have them arrive at your door in days.
