

SOLAR PROJECT PORTFOLIO

Colorado Springs Health Partners

Location: Colorado Springs, CO
Year Completed: July 2009
Client: Colorado Springs Health Partners
Project Description: 33 kW Roof Mount PV
Safety Record: Zero lost time or safety incidents.

Role: Douglass Colony Group designed, engineered, furnished and installed all PV. Kenny Electric performed utility interconnect to Xcel Energy. DCG also roofed prior to PV and flashed all penetrations.

City of Thornton PV

Location: Thornton, CO
Year Completed: September 2010
Client: City of Thornton
Project Description: 150 kW Roof Mount PV
Safety Record: Zero lost time or safety incidents.

Role: Douglass Colony Group designed, engineered, furnished and installed all PV. Kenny Electric performed utility interconnect to Xcel Energy. DCG also roofed prior to PV and flashed all penetrations.

Ft. Carson Army Base

Location: Colorado Springs, CO
Year Completed: 2007
Client: SunTechnics
Project Description: 2.0 MW Ground Mount PV System
Safety Record: Zero lost time or safety incidents

Interconnection Role: Kenny Electric performed utility interconnect to Ft. Carson Army Base Grid.

Morgan Community College

Location: Fort Morgan, CO
Year Completed: July 2010
Client: Alliance Construction
Project Description: 18.8 kW Roof Mount PV
Safety Record: Zero lost time or safety incidents.

Role: Douglass Colony Group designed, engineered, furnished and installed all PV. Kenny Electric performed utility interconnect to Xcel Energy. DCG also roofed prior to PV and flashed all penetrations.

University of Colorado at Colorado Springs Science & Engineering Building

Location: Colorado Springs, CO
Year Completed: June 2009
Client: UCCS Facilities Services
Project Description: 13 KW Roof Mount PV System
Safety Record: Zero lost time or safety incidents

Role: Douglass Colony Group designed, engineered, furnished and installed all PV. Kenny Electric performed utility interconnect to Xcel Energy. DCG also roofed prior to PV and flashed all penetrations.

***Colorado Renewable Energy Society Green Building of the Year Award.**

Davis Monthan AFB Solar

Location: Tucson, AZ
Year Completed: 2009, 2010
Client: Solar City
Project Description: 1.7 MW Ground Mount PV System
Safety Record: Zero lost time or safety incidents

Interconnection Role: Kenny Electric performed utility interconnect to DMAFB Grid.

Cheyenne VA Medical

Location: Cheyenne, WY
Year Completed: July 2010
Client: Tusca II Contracting
Project Description: 51.8 kW Carport Mount PV
Safety Record: Zero lost time or safety incidents.

Role: Douglass Colony Group designed, engineered, furnished and installed all PV. Kenny Electric performed utility interconnect.

SOLAR PROJECTS IN PROGRESS

Colorado School of Trades

Location: Lakewood, CO (Xcel Energy)
Year Completed: July 2010
Client: Colorado School of Trades
Project Description: 30 kW Roof Mount PV

International Data Center

Location: Denver, CO
Year Completed: In Progress
Client: Classified
Project Description: 100 kW Roof Mount PV

Grand Junction VA Medical

Location: Grand Junction, CO
Year Completed: In Progress
Client: Tusca II Contracting
Project Description: 48 kW Carport Mount PV
