# Deadline Looming: ezPaycheck Software Helps Employers Update Payroll Tax Rate Before Jan 31, 2011

ezPaycheck payroll software, from Halfpricesoft.com, makes it simple and easy to handle the latest social security tax changes on Tax Relief Act signed by President Obama on Dec 17, 2010. Learn more at www.halfpricesoft.com.

halfpricesoft.com, the provider of ezPaycheck payroll tax software solution, reminds small business owners and accountants that **IRS asks employers start using the new withholding tables and reducing the amount of Social Security tax withheld as soon as possible in 2011 but not later than Jan. 31, 2011**

For year 2011, the employee tax rate for social security is reduced to 4.2%. The employer tax rate for social security remains unchanged at 6.2%. Year 2011 federal tax rates carry over from last year, but the brackets are a bit higher than Year 2010's due to inflation adjustments.

ezPaycheck 2011 Payroll Software is released to help small businesses and accountants to handle the latest tax changes easily and smoothly. The latest edition of **ezPaycheck** implements the 2011 cut in payroll taxes, along with new income-tax withholding tables that employers will use during 2011.

Designed with non-accountant business owners and managers in mind**, ezPaycheck payroll software** is loaded with intelligent, intuitive features, but not burdened by complicated suites of expensive applications small businesses will never use or need. The software is ideal for owners of small to mid-sized businesses, and was designed and engineered for ease-of-use by those who have only basic computer skills and little accounting know-how.

"For the majority of small businesses in the world there really hasn't been a simple, dependable payroll program until ezPaycheck. So it's a great feeling knowing that we save small businesses money on their payroll software needs. What's even better, though, is knowing we make their life less frustrating and save them much needed time."

The main features include:

- Up to date tax tables for all 50 U.S. states, Washington D.C. and federal taxes
- Capability for adding local tax rates
- Automatically calculate tips, commissions, federal withholding tax, Social Security, Medicare tax, employer unemployment taxes, and other pre-tax and post-tax deductions

- Print paychecks using a standard laser printer on blank computer checks or preprinted checks
- Use check-in-middle, check-on-top, or check-at-bottom check stock formats
- Able to print MICR numbers on blank check stock to save on pre-printed checks
- Print signature image on checks for a customized look
- Built-in report functions users can customize
- Calculate and print daily, weekly, biweekly, semimonthly and monthly payroll periods
- Option for masking employees' Social Security Numbers on check stubs
- Compile and print federal tax forms w2, w3, 940 and 941
- Unlimited free technical support

ezPaycheck 2011 can be downloaded for free and tried for up to 30 days to ensure the software meets the customer's needs before purchasing. The free download includes all features of ezPaycheck 2011, except check printing. For full, unlimited use customers must purchase a license key.

To make sampling ezPaycheck 2011 even easier, the free download includes a sample database. Customers do not have to waste time entering employee data before sampling the software's many features.
