Show the page thickness :

Icons File(SWF Only)	
<input type="checkbox"/> Flash Display Settings	
<input type="checkbox"/> Pages per thickness	1
Background Alpha	1
Retain the book to center	Yes
Show Corner Flip Effect	True
<input type="checkbox"/> Font	
<input type="checkbox"/> Buttons	
Font Color	0x000000
Button Font	Tahoma
Page Index Font Color	0xFFFFFFFF
<input type="checkbox"/> Background Config	
<input type="checkbox"/> Background Color	
Gradient Color A	0xececec
Gradient Color B	0xececec

Pages per thickness

Pages per thickness: How many pages to show a distinguishable thickness. The smaller value set, the thicker your book. If the value is smaller than 0, or larger than the total page number of your book, it won't show any thickness.

Insert a flash background:

The screenshot displays the 'Background' settings panel on the left and a preview of a book cover on the right. The settings panel includes the following options:

- Font
- Buttons
 - Font Color: 0x000000
 - Button Font: Tahoma
 - Page Index Font Color: 0xFFFFFFFF
- Background Config
- Background Color
 - Gradient Color A: 0x808080
 - Gradient Color B: 0xececec
 - Gradient Angle: 90
- Background
 - Background File: _butils.swf ...**
 - Background position: Scale to fit
 - Bar Color: 0xC0C0C0
 - Thumbnail Background ...: 0xF5F5F5
 - Page Background Color: 0xFFFFFFFF
- Book Proportions
 - Page Width: 681
 - Page Height: 841 6059

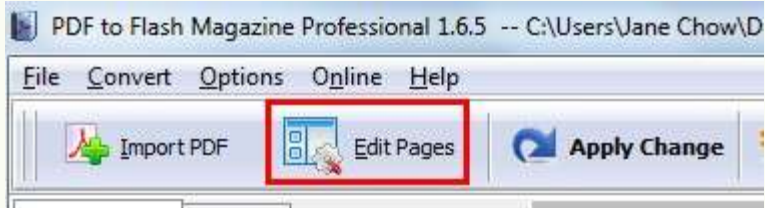

Below the settings panel is a 'Background File' section with a 'Select a background (image or swf) for the book.' prompt and a file selection area.

The preview on the right shows a book cover with the text 'pretty modern' and 'THE NEW LOOK'. A red arrow points from the 'Background File' setting to the preview area.
