

GET READY FOR SUCCESS

Introducing Our New Learning Management System

Our LMS provides users and supervisors the ability to assign learning tracks, establish due dates, and award certificates for completion. Our LMS also has the ability to track progress for supervisors and users, send alerts, and much more. It's the perfect tool for getting the most out of your subscription.

Designed With Partners in Mind

Users can register their Partners inside of the LMS. This means that when an organization needs access to their most trusted resource, we make it simple. After a subscriber registers their Partner inside the LMS, it only takes one click to reach out. This is good for Abila MIP Fund Accounting™ Users, and their Partners.

Robust Administrative Features

With a few clicks supervisors can assign courses, set due dates, create custom learning tracks, and more. It's also easy to add or delete users, set admin levels, and track progress.

Built in Alerts & Reminders

Users get alerts when assigned learning tracks and useful reminders throughout the course of their learning. Supervisors will get notifications when videos are watched and quizzes are taken, as well as when users have successfully completed a track and received their certificate of completion.

Comprehensive Reporting

We have designed our LMS to document and deliver real results. Both Users and Admins have quick dashboard access to track progress, view watched videos, see earned certificates, and much, much more.

Tiered Admin Levels

Our admin levels are designed to be effective for all sizes of organizations. We offer three admin levels that come complete with customized reporting, user assignments, and access inside of the LMS.

Get Certificates of Completion

You deserve credit for what you've learned— with our LMS, you get it! Default certificates of completion are built right into our system. In addition, unique certificates can be added to your custom learning tracks. You will definitely have reason to be proud!

The Short Story

There has never been a more complete eLearning solution for Abila MIP Fund Accounting. Our videos cover a broad range of topics, now our LMS makes True North Training complete.

A LOOK AT LMS ADMIN

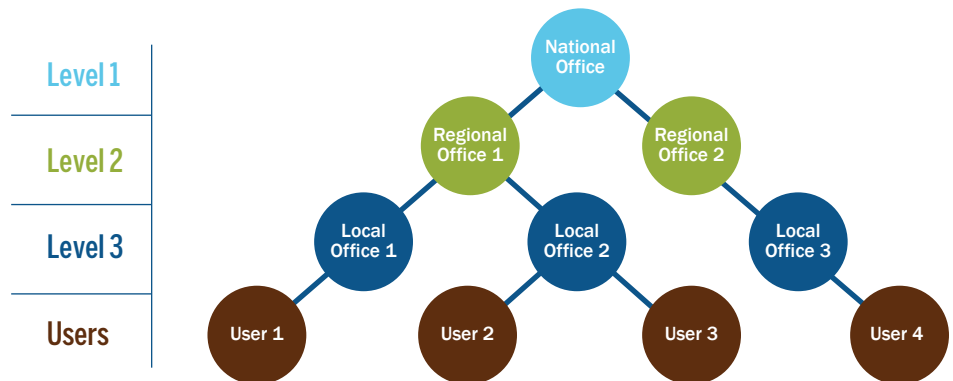

We Offer Three Tiers of Admin for Ultimate Flexibility

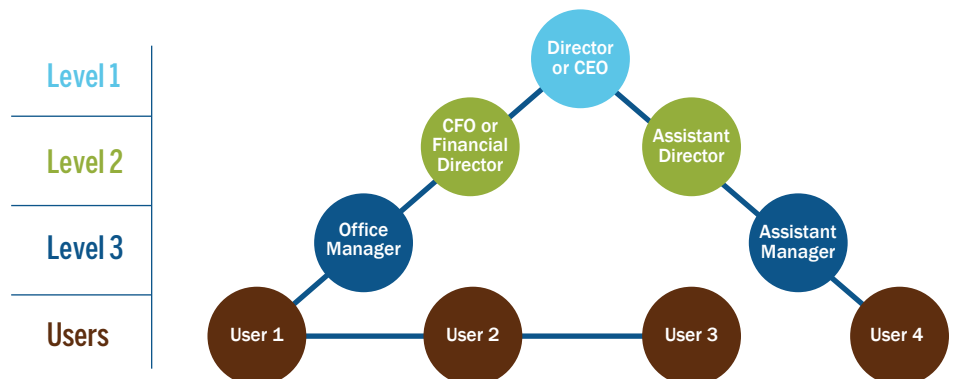

Our LMS has three tiers built in from the start of your subscription. Level 1 is the highest Level, Level 2 is the second highest, and Level 3 offers basic admin and reporting. Level 1 Admins have access to a complete organizational overview as well as Level 2 and Level 3 reporting. Level 2 Admins have an overview of Level 2 and Level 3 reporting and Level 3 Admins have access to reporting on users that are linked directly to them in the LMS.

We designed our Admin Structure to be flexible and applicable no matter the size of your organization. Below are examples of how different organization can set up their admin tiers.

Large Organizations

Medium Organizations

Smaller Organizations
