Bullying and School Violence Can Be Controlled. Bullying Expert to Spend One Hour on WGN 720 in Chicago Addressing Concerns.

Bullying is an epidemic in all schools. Derek Randel is asked by WGN Radio to come back and spend one hour discussing bullying and school violence.

/24-7PressRelease.com/ -- Wilmette, IL October 14, 2004 -- 20 minutes was not enough time last Thursday on WGN radio. My child had to be hospitalized, my child needed to be home schooled, and you can't believe what was happening everyday on the school bus. These were some of the calls Steve Cochran received for parent coach, author, and bullying expert Derek Randel.

The phones board lit up so much, we immediately asked Derek to come back the following week. This Monday, October 18th, from 1 p.m. until 2 p.m. CDT Derek will be back with Steve Cochran on WGN 720 AM. They will discuss how to handle bullying situations, what the schools should be doing, school bus issues and much more. Derek is the author of, *The Shameful Epidemic - How to protect your child from bullying and school violence.*

Issues to be discussed include the following: Ending the school bus problem. Derek has a simple solution to this problem. Schools cry that they do not have any money, Derek's solution will not cost the schools a penny. What happens when your child is the bully? Derek will go into how parenting effects this situation. Parents may not like what he has to say.

If your child is the victim what should you be looking for? Many answers to this question and Derek explains about messages we send. How is your child's self-esteem, how do they carry themself, body language is very important, and how are they different? We want them to understand that the bully is the problem not the victim. How can you tell if your child has been bullied? Most kids do not tell an adult that they have been or are the victim of bullies. Derek will share what to look for in your child.

Derek is also a parent coach who helps parents remove the yelling from their homes.
