Chassis Plans Announces Mark Lovett Joins Team

Mark Lovett joins Chassis Plans as President and CEO

/24-7PressRelease.com/ - San Diego, CA - November 12, 2004 - Chassis Plans today announced that Mark Lovett has joined the Company as President & CEO. Mr. Lovett has been acting as interim CEO and will continue to lead the company through its continuing significant growth and expansion.

"I worked with Mark for over 3 years at Action Instruments, followed by 12 years at Industrial Computer Source where he was part of the original executive team and served as Vice President of Operations and CIO. During that time I saw Mark implement systems and build teams that helped fuel the rapid growth of Industrial Computer Source to achieve sales in excess of \$100 million," said David Lippincott, Founder of Chassis Plans and of Industrial Computer Source. "Today's customers require sophisticated quality systems and company commitment to those systems. Mark's unique skill set and experience in the areas of operations and information systems management is proving extremely valuable in that regard as Chassis Plans continues to win high value contracts and penetrate new markets."

Mr. Lovett has over 25 years of experience in various management positions within the industrial computing arena. Most recently, he spent 2 1/2 years at ICS Advent (formerly Industrial Computer Source), where he held the position of Vice President & Chief Information Officer. He was instrumental in their implementation of JD Edwards OneWorld ERP system.

About Chassis Plans

A leading supplier of ruggedized and rack mount computer products, Chassis Plans, The Original Industrial Computer Source, offers unmatched custom product design and integration to provide clients with solutions exactly tailored to their application requirements. The founding members and management team of Chassis Plans had previously founded Industrial Computer Source and grew that company to over \$100M in sales before the company became ICS Advent. Chassis Plans offers an off-the-shelf line of industrial computer enclosures, single board computers and keyboard/LCD displays. Custom enclosure design and manufacturing has been the company specialty since its founding in 1997. The Company has demonstrated 100% growth per year for the last three years and is on track for 300% this year. Information on Chassis Plans can be found at www.chassis-plans.com.
