E-Integration, Inc. Offers VoIP Technology

E-Integration, Inc. introduces 24VoIP telephone services for residential/ business customers and launch of 24VoIP website.

/24-7PressRelease.com/ - March 25, 2005 - Eastpointe, MI - E-Integration, Inc. (www.e-integration.net) a leading Solution Services Provider (SSP) and Managed Services Provider (MSP) is announcing that they now offer 24VoIP telephone services for residential and business customers. 24VoIP.com is a telephone service using Internet Broadband as a way to send Voice information in digital form Over Internet Protocol ("IP") rather than through the traditional Public Switched Telephone Network (PSTN).

E-Integration, Inc. is able to bring best-of-breed rich features, reliable and quality Voice over IP and Internet connectivity solutions to 24VoIP by teaming up with leading global providers including CommPartners, BroadSoft, Global Crossing, SBC, Level 3 and Verio.

Options include telephone mobility, emailed voice messages and multiple office management. Users can also retain their current number and choose the area code. Yoom Nguyen, President and CEO states, "It is a revolutionary business tool because it offers accessibility and rich features yet remains cost effective. More businesses, including small businesses, would be implementing a VoIP solution if they understood the cost-savings and efficiency it offered."

The 24VoIP.com telephone services include unlimited local and long distance calling (United States and Canada) with rates starting as low as \$19.95 per month. 24VoIP broadband phone services require a broadband Internet connection, such as cable or DSL and either an ATA adapter, IP phone or computer.
