Solutions To Bullying Offered By Illinois Expert

[/24-7PressRelease.com/](#) - Wilmette, IL - April 27th, 2005 - Bullying expert, Derek Randel, the author of *The Shameful Epidemic - How to protect your child from school violence and bullying* will be speaking Sunday May 1st at 8:45 a.m.. He will be addressing the Illinois PTA conference at the Lisle/Naperville Hilton, Illinois.

Mr. Randel states two main reasons bullying continues is due to bystanders not getting involved and bullying always thrives where authority is weak. He will show how to solve these issues. National Education Association estimates that 160,000 children miss school every day due to fear of attack or intimidation by other students. These situations are a parents' nightmare. From the playground, lunchroom, hallway, school bus, traveling to and from school, in cyber space, children are being bullied. The schools are not solving this problem. Mr. Randel's program offers solutions and calls for actions. He will be talking about what a parent can do, why your child is a victim, why people bully others, how to handle cyber-bullying and so much more.

"This program calls on the adults in the child's life to stand up for what is right. Saving someone from being bullied and taking action against school violence is a stance we all must take." Gail Randel M.D.

This program can and will change lives. It is located at www.stoppingschoolviolence.com. Every parent wants their child to be safe, this program works in that direction. Derek is a former middle and high school teacher who has a parent coaching program entitled Parent Smart From The Heart. He has been nominated for a Disney American Teacher Award and he is heard on radio shows around the country.

For more information and interview requests contact Randel Consulting at the above number.
