**DataSplice Mobile Computing webcast give more than just information**

*In a bid to show the benefits of integrating mobile computing into Computerized Maintenance Management Systems (CMMS) DataSplice is waiving a carrot to webcast attendees who use a CMMS or other enterprise system can earn a free gift of mechanic's gloves while learning about mobile technology*

*/24-7PressRelease.com/ - Fort Collins, CO, May 4, 2005 - DataSplice Inc. (Fort Collins, Colorado) is waiving a carrot to the users of Maximo software by MRO and other CMMS systems that want to take their systems mobile. Attendees who register at [datasplice.com/real](http://datasplice.com/real) and are users of a CMMS or other database driven enterprise system can earn a free gift of high quality mechanic's gloves while learning about the business and technical aspects of mobile technology, and specific ways it can maximize the efficiency of a CMMS. Users will need to complete a short survey at the end of the webcast to qualify for their free gift.*

The presentation is a resource those interested in optimizing operations with mobile technology. Webcasts will touch on "hot topics," including condition monitoring, work orders, inventory control. To sign up for a DataSplice webcast and free gloves, visit <http://www.datasplice.com/real>

Users of Maximo or other CMMS products can attend a scheduled webcast, or request a specialized, one-on-one webcast on such topics as:

- Tool Tracking for Inventory Control
- Work Orders: Accurate Labor Reporting and Material Tracking
- Mobile Handheld Technology for Substation Management
- Condition Monitoring: Utilizing Barcodes for Equipment Data Capture

For more information, please contact Jeff Gibson at 800.377.1974 ext 1734, email at [real@datasplice.com](mailto:real@datasplice.com) or visit their website at <http://www.datasplice.com>

DataSplice provides mobile handheld technology for field service maintenance in the Oil and Gas, Utilities, Defense and Manufacturing industries, and is an alternative to MAXIMO software mobile products. DataSplice was founded in 2001 and is based in Fort Collins, Colorado. For more information visit <http://www.datasplice.com> or call 800-377-1974. DataSplice is not affiliated with MAXIMO, which is a registered trademark of MRO Software, Inc.
