Inkcups Now Announces the ICN Semi-Automatic Pad Printers

Inkcups Now unveils two semi-automatic pad printers to handle a variety of pad printing applications

/24-7PressRelease/ - DANVERS, MA, July 19, 2006 - The [ICN-1200 pad printing machine](#) is a heavy duty machine ideal for both the "start-up" pad printer and for those who want to run a round the clock production. This exceptionally smooth operating machine has ample pad compression enabling it to decorate a wide variety of parts.

The ICN-1200 is equipped with 60mm or 90mm ink cups and the ability to print one or two colors. The machine is easy to set-up and operate, featuring an intuitive operator control panel, adjustable pad stroke over both the plate and the part, heavy duty pad compression and full base cabinet with XYR micro-registration table.

The ICN-1200's patented sealed cup technology coupled with its highly competitive price and world class technical support make the ICN-1200 the right choice for any pad printing application.

For four-color printing, the [ICN-2500 pad printing machine](#) is a heavy-duty four color sealed cup pad printer with a precision servo controlled indexing shuttle table. It is designed for rapid job setup and changeover featuring: XYR micro-adjust plateholder assemblies, programmable shuttle table (+/- .001") and quick-release locking handles on pad and cup assemblies. Setup can be accomplished easily without the use of any tools and the machine features Inkcups Now's patented VersaCup ink cup assembly with two-sided ceramic ring.

The print cycle of the ICN-2500 is smooth and repeatable. With its membrane touch control, all setup features are simple and easy to program including: pad stroke, pad delay and shuttle location. The durable 2500 printer has ample compression capability and is able to accommodate large, hard print pads - making the ICN-2500 printer one of the most versatile, capable and cost effective multi-color pad printers available on the market today.

Inkcups Now was founded by innovators who over the last fifteen years developed and patented many improvements in the pad transfer and specialty screen printing fields. Inkcups Now is dedicated to providing superior printing products and delivering them at the most competitive prices in the industry. ICN printing products and supplies are used every day in a myriad of applications and on machines produced by all of the well known manufacturers.
