From Zero To Affiliate Hero, or How Residon.com Redefines ClickBank, Adsense, Yahoo, Amazon, and Other Affiliate Programs with 2-tiered Residual Income System.

Residon.com is a new residual income opportunity that offers a free membership web site with entire ClickBank marketplace and one of a kind set of ClickBank web site plug-ins, all built on unique system that adds two affiliate tiers to ClickBank, Adsense, Amazon and other 3rd party services.

/24-7PressRelease/ - February 16, 2007 - Residon.com starts a new service which goal is to make it much easier for people to succeed in affiliate business. It is a risk free opportunity for anyone who pursues his home business career with ClickBank, Adsense, Yahoo, Amazon, or other affiliate programs. Residon.com brings the system used by those few super-successful affiliates to everyone.

The key behind the success of the top affiliates.

Looking at ClickBank, the most successful affiliates have one thing in common. They offer other affiliates additional services such as ClickBank storefronts, ClickBank based contextual ads, datafeeds, etc. With such services the top affiliates make other affiliates their paying customers, or create second affiliate tier from them by taking portion of their efforts. An ordinary affiliate can never reach the level of the top affiliates who provide additional affiliate tools and services.

Residon.com changes the rules -- equal chances for everyone.

Residon.com is an innovative web site which allows people to be both users and providers of affiliate services at the same time, on the same web site. Residon.com's members can:

- 1) use unique set of affiliate tools and web site plug-ins (not to be found anywhere else) to increase their own affiliate earnings from ClickBank, Google Adsense, Yahoo Publisher Network, Amazon, Chitika and other affiliate programs.
- 2) build a team of own affiliates and make true residual income for life by offering people tools and services of a real value.

Multiple streams of residual income for life.

Residon.com's unique system adds not just one, but two additional tiers to ClickBank, Google Adsense, Yahoo, Amazon, Chitika, and other affiliate programs. Since now, everyone can have his own 2-levels deep army of referrals earning him his affiliate commissions from all programs mentioned above.

Residon.com also features its own affiliate program which pays its members generous 45% commissions from all account upgrade fees paid by member's direct referrals. With monthly fees between \$5 and \$55 this affiliate program is a source of recurring income of up to \$25 per month and paying user.

Besides, Residon.com incorporates other services such as AdBrite which are another source of residual income.

Free feature packed affiliate web site for everyone.

Each Residon.com member receives free affiliate website -- fully customizable clone of residon.com itself. The site features:
