Heavenly Rolls-Royce Silver Seraph Awaits at DFW Elite Car Club.com

It's the Perfect Way to Get an Angel to Prom or to the Wedding Chapel

/24-7PressRelease/ - DALLAS, TX, May 01, 2007 - A [Seraph](#), to readers of the Old Testament, is a six-winged angel. Among luxury car aficionados, however, the word has an entirely different meaning. It refers to the final model of [Rolls-Royce](#) made at England's famous Crewe manufacturing plant from 1998-2002. During these four years, only 1570 [Silver Seraphs](#) were painstakingly hand assembled by the artisans of this legendary coachmaker before production of the model ended forever. If you missed them, don't despair.

A [Silver Seraph](#) is now available to members of [DFW Elite Car Club.com](#). "We're delighted to add our third [Rolls-Royce](#) to the roster of cars at the disposal of our members," says Club founder and [Fort Worth](#) entrepreneur [Ron Sturgeon](#). "We have a lot of members who are parents," says [Sturgeon](#), "and I expect this newest addition will be popular among those members who wish to give their daughters the ultimate in head-turning luxury for their proms this spring or an especially elegant ride to a heavenly white wedding."

"Most of our members are focused on using their monthly allotment of points for entertaining clients," states Club Director Scott Throneberry. "But we can also provide members with the perfect vehicle for a wedding, a graduation, or an anniversary. Imagine how special your angel will feel when you hold open the door of this [Silver Seraph](#) for her?"

No doubt, members will appreciate the classic lines and distinctive styling that make this [Rolls-Royce](#) among the most beautiful cars in the world. However, there is much more to [Rolls-Royce's Silver Seraph](#). "There isn't an automaker anywhere that finishes the interior of a car as finely as they did at England's Crewe workshops," says [Sturgeon](#) as he notes the tulipwood, burl walnut, luxurious leather throughout, the personal climate controls, and the acoustic perfection of the [Alpine](#) sound system.

With a refined but powerful V-12 made by [BMW](#) under the hood, the [Silver Seraph](#) is as reliable as she is graceful and makes arriving on time or fashionably late enviably easy. "As popular as our [Rolls-Royce Phantom VI](#) and [Corniche](#) have been, we expect the same for this new [Silver Seraph](#)," says [Sturgeon](#). "I think folks will find that having the keys to the Seraph and over fifty other distinctive vehicles a phone call away makes membership in [DFW Elite Car Club.com](#) simply divine."

[DFW Elite Car Club.com](#) is a new way to enjoy the world's best autos without the hassles of depreciation, maintenance, or storage. The club is headquartered at 5940 Eden in [Fort Worth](#), and serves [Houston](#), [San Antonio](#), and [Austin](#), as well as the DFW Metroplex with over 50 exotic and luxury cars, trucks and SUV's. For more information about joining or a full listing of club-owned vehicles, visit www.dfwelitecarclub.com, or call 214.224.0442.
