DFW Elite Car Club.com Grows Again with Addition of Aston Martin V8 Vantage Roadster
Club Members Will Be Among the First in the Nation to Drive Convertible Vantage

/24-7PressRelease/ - DALLAS, TX, May 12, 2007 - The family is about to get a little bigger at [DFW Elite Car Club.com](http://www.DFWEliteCarClub.com), and the latest arrival is among the most anticipated new cars of the year. [The Aston Martin V8 Vantage Roadster](http://www.AstonMartin.com) - the convertible version of the popular [V8 Vantage](http://www.AstonMartin.com) - will roll into the [DFW Elite Car Club.com](http://www.DFWEliteCarClub.com) garages on May 25th. The compact sports car combines the power and beauty of the Aston Martin brand with the carefree spirit that is synonymous with [convertibles](http://www.AstonMartin.com), creating one of the year's most sought-after new vehicles.

"This is the perfect car for summer," says [Ron Sturgeon](http://www.RonSturgeon.com), owner of [DFW Elite Car Club.com](http://www.DFWEliteCarClub.com). "The Vantage is known for its pure driving pleasure, and when you add the appeal of the convertible, it becomes even sexier. When you put the top down on this car, you just want to take it out on the open road."

The [V8 Vantage Roadster](http://www.AstonMartin.com) shares the same sleek, compact build of its hardtop counterpart and is only slightly shorter in height. Using the convertible top as an example of elegant design, the cloth top hides neatly beneath a metal tonneau cover and actually enhances the visual appeal of the car's sculpted, muscular back end. The leather-lined vehicle embodies the elegance for which [Aston Martin](http://www.AstonMartin.com) is known, while the reduced weight of the car lends to the Roadster's rigidity.

"The craftsmanship of this car is beyond compare," [Sturgeon](http://www.Sturgeon.com) says. "It's built by hand and that shows in everything from the lines of the car to the stitching on the seats. Even the engine is hand-built, offering the perfect blend of tradition and technology."

On the road, the marriage of tradition and technology translates into a high-performance sports car that can go from 0-60 in 4.9 seconds and top out at 175 mph. [DFW Elite Car Club.com](http://www.DFWEliteCarClub.com)'s new Aston sports a red exterior with a cream-colored interior featuring red stitching. It joins a fleet of luxury cars that include a [Rolls-Royce Phantom VI](http://www.RollsRoyce.com), the 2007 [BMW M6 Convertible](http://www.BMW.com), the [Ford GT](http://www.Ford.com), the [Ferrari F430 Coupe](http://www.Ferrari.com) and more.

The club provides the thrill of driving some of the world's "most wanted" cars without the costs or responsibilities that accompany ownership. Five different "[tiers](http://www.tiers.com)" allow club members to select their level of participation and pay a monthly fee to access the fleet.

In addition to access to the [luxury cars](http://www.luxurycars.com), membership in [DFW Elite Car Club.com](http://www.DFWEliteCarClub.com) includes special invitations to exclusive, members-only events; a points system that rewards members for referrals and points that carry over from month to month; an affiliate agreement that provides discounts with other car clubs; and discounts off the innovative [Drive Your Dream](http://www.DriveYourDream.com) exotic auto tours.
