Press Release Service site <http://www.24-7pressrelease.com> Enhances Search Results and Increases Site Performance.

Are You Looking In The Right Places To Enhance Your Online Exposure?

/24-7PressRelease/ - (New York, NY) – May 21, 2007 - 24-7PressRelease.com, a leader in the press release service industry for press distribution has recently enhanced their site search results. Journalists and researchers will notice faster search results that are more accurate.

“This is one of many upgrades we have been looking to perform for our customers” said Michael Iwasakii, Business Development Advisor with www.24-7pressrelease.com. Further site enhancements for paying customers (\$45 or more) include ad free releases, and key word embedding. The key word embedding will add key words to the end of their press release.

“The site and what they offer is incredible. 24-7 Press Release Newswire gives the opportunity to submit a press release that includes image attachments, SEO enhancing title tags, key word embedding, along with access to view and track your press release statistics and track performance, for only \$45? This is unheard of!” said Marvin Ready, marketing representative with Image Catalog Stock Photography, www.imagecatalog.com. “As a newer royalty free stock photography web site, we need top marketing partners, and 24-7 Press Release has performed well for us!”

Are you a web site owner or web site developer looking for dynamic news content for your site? 24-7 Press Release offers original content news feeds, for free, to those looking to offer their customers dynamic news content. And with nearly 200 categories of news available in both “plug and play” JavaScript code, or RSS, 24-7 Press Release is sure to have a feed for your web site.
