Dyna-Staff University Expands Partner Network

Today Dyna-Staff announced the addition of Microsoft Business Intelligence partner Solver Inc., to complete Dyna-Staff University's training offering with the class for the coming Microsoft BI suite, Microsoft office PerformancePoint Server 2007

/24-7PressRelease/ - LOS ANGELES, CA, July 14, 2007 - "Solver is one of the most experienced PerformancePoint Server partners in the US, having worked with the alfa and beta versions the past two years," says Dyna-Staff CEO Von Robinson.

Initially the training offering will include a standard three day introductory class for the PerformancePoint Server planning module. "There is a lot of synergy between Solver as the PerformancePoint Server training partner and Dyna-Staff University as the organizing body of technology training for the Microsoft BI and ERP community," says Nils Rasmussen, Principal at Solver, Inc.

In addition to Solver Inc. providing training on Microsoft BI applications, Dyna-Staff University has also partnered with Symplic Technology LLC who is providing specialized on-site and class room training in Microsoft SQL Server and Analysis Services.

Earlier this year Dyna-Staff University started partnerships with these four major Microsoft Dynamics ERP training centers; Lanac Technology, Rose Business Solutions, I.B.I.S., and Interdyn AKA.

About Dyna-Staff
