Coastal Vacations Slashes Prices To 80% Off On 5 Star Condo Resort Stays For Summer Travel

Just in time for Summer travel, Coastal Vacations offers deep discounts on luxury 5 star condo stays. Members report saving more than what they paid for the lifetime membership with just their first or second resort stay.

/24-7PressRelease/ - SAN PEDRO, CA, July 14, 2007 - Coastal Vacations is offering one week luxury condo stays at 80% off. The resort stays are offered worldwide just in time for Summer family vacations.

The deeply discounted resort stays can be booked right on the internet and there is availability as soon as next week. The 1, 2 and 3 bedroom condo units are just one of several ways Coastal Vacations members can travel for pennies on the dollar.

For over 25 years Coastal Vacations has offered a time tested lifetime travel membership program that offers deep travel discounts. Coastal Vacations members save on condos, hotels, cruises, airline tickets, meals, golf, and much more.

Travel experts say the Coastal Vacations travel memberships are the best kept secrets in the travel industry. Over 160,000 members live in over 100 countries around the world.

Current resort condo vacations start at just \$233. That's not per night. That's for the entire week.

An abundance of condo resorts are found in locations like Florida, Mexico, the Caribbean and Hawaii. Mountain resorts in Colorado, Utah, Idaho, Vermont, and British Columbia also offer Coastal Vacations condo options.

New Coastal Vacations members are often surprised to find huge discounts on luxury condos worldwide. Coastal Vacations members often report that they saved more money on their first vacation than they paid for the entire lifetime Coastal Vacations membership.

The worldwide condo inventory currently includes countries like the Dominican Republic, Argentina, Brazil, Italy, France Greece, Spain, South Africa, Israel, Egypt, Australia, Hong Kong, Korea and Tahiti.

Resort condos available to members of the Coastal Vacations travel program offer amenities similar to those a luxury hotel provides.

Additional amenities are provided at condo resorts that make extended stays even more comfortable. A stereo system, full kitchen, beach chairs, and laundry equipment in the unit are some of the extra amenities luxury condos often provide.

The most valuable amenity Coastal Vacations members traveling with their families value is all the extra room. For those who tried to enjoy a family vacation while staying in a tiny hotel room, the larger multi-bedroom units are the best feature.

Dean Marino coordinates training for the largest, fastest growing, and most successful group in the Coastal Vacations program. Marino recently enjoyed a condo stay at a 5 star resort in Puerto Vallarta Mexico that is often available through the Coastal Vacations program.

The resort Marino stayed at is all-inclusive. The Los Angeles California based Level 3 Coastal Vacations Director explained that to some a vacation does not involve carrying a wallet; All-inclusive resorts simply attach a bracelet to the wrists of guests. At many of these resorts, all food, alcoholic beverages and gratuities are included, so guests don't need to even carry a wallet.

The deeply discounted condo stays are just one of many benefits Coastal Vacations members enjoy. Complimentary vacations, complimentary cruises, and hotel discounts of up to 50% are all part of the packages. Other benefits include discounts on meals, car rentals, ski lift tickets, Golf, and other recreational activities.

Coastal Vacations trainer and conference call host Dean Marino makes his valuable report detailing the steps to success with the Coastal Vacations business and a free vacation voucher available to visitors to his website free of charge. Visit [HTTP://WWW.COASTALPASSIVEINCOME.COM](http://www.coastalpassiveincome.com) and ask for his life changing report and free travel voucher.
