Para-Psychologists Say Hollywood's Gone Spiritual

Face-reading para-psychologist Erik Kanto has studied the character features on the faces of today's Hollywood idols, and he thinks they are promising. For instance, when reading the faces of Angelina Jolie and Brad Pitt, the features reveal that they have a lot in common, in the spiritual way.

/24-7PressRelease/ - SIMI VALLEY, CA, November 24, 2007 - "Face-reading psychology answers many questions we all have as to why certain things in life work and others do not," Kanto says. "Why our relationships sometimes succeed, and sometimes don't. Why it appears that for some people, situations easily resolve themselves, and for others they cause a lot of pain." Erik and Ilona Kanto's very entertaining and revealing new book, *Your Face Tells All*, helps to understand these questions we all have in mind. They think, by looking at a person's facial shape and features, you can learn a lot of information: temperament, potential, creativity--and if people have a spiritualistic way of thinking.

When reading the faces of Angelina Jolie and Brad Pitt, the face-reading para-psychologists see that they have a lot in common. Their face shapes are very much alike. Their foreheads show they both have the spiritual and idealistic way of thinking. They both want to learn the secrets of the universe. They both also have some "Fire-element" in their faces. That makes them restless, like a fire, always looking for a new form. That is also the nature of a Fire person. There is never a dull moment with Fire personalities. So say the face-reading para-psychologist authors.

They see Nicole Kidman and Keith Urban as another exciting Hollywood couple. "They both have the facial element of "Wood" in their faces. Keith's face is narrow at the bottom, widening to a broad forehead. The forehead is also high. A Wood person is spiritual--he is honest and idealistic. Keith Urban enjoys expansion as he is spreading his branches into the sky--like a tree. Wood people are wise, so artists, scientists and thinkers are of this element."

Add the Kantos: "Wood personalities, like Nicole Kidman and Keith Urban, have very compatible pleasures and interests. Wood personalities are voluminous thinkers and often marry." The only problem is, Erik Kanto thinks, that they may get bored together, and neither one is really interested in dealing with the realities of life. "However, it is helpful that Nicole's interesting-shaped eyebrows reveal that she is adventurous and enjoys life. She likes dealing with imagination, creativity and big, risky decisions."
