Granite Shield - Natural Stone Cleaning and Care Products

Now you can purchase Granite Shield's line of cleaning and aftercare products for natural stone, glass and stainless steel online now.

/24-7PressRelease/ - CANYON LAKE, CA, December 01, 2007 - Debbie Burton Phillips Vice President of Granite Shield felt the need in 2005 to expand Granite Shield's aftercare product line because of her own experiences and homeowners expressing they don't like what is available in stores to clean and maintain granite, other natural stones, glass and stainless steel. Products today available in the grocery stores, kitchen & bath stores and well known "big box" home improvement stores the consumer is still complaining that what is available over the counter leaves their granite with a waxy, dull and a smeary build up mess plus unsure of what to use to clean natural stone after placing raw meat on the countertops. Granite Shield has expanded their aftercare product line to make sure the homeowner's needs are taken care of to have an easy to clean, low maintenance, harsh chemical free home.

Granite Shield's Kleen N Shine repellent spray is the best granite cleaner available. You won't find a better repellent cleaner in stores or on the internet. Just spray on and wipe off with a clean microfiber towel. Cleans, repels and shines. Your granite has never felt smoother or shiner. Caution: Do not use on flooring, it will be slippery and will take a long time to wear off. Keep in mind using Kleen N Shine only your granite can still stain, will not be as repellent and shiny as having the Granite Shield permanent sealing process on your granite. Tired of the streaking, fingerprinting mess on stainless steel? Try Kleen N Shine. Kleen N Shine is an all purpose cleaner for granite, glass, stainless steel mirrors and fiberglass. Kleen N Shine can also be used on cars, RV's, boats and watercraft to keep them repellent and easy to maintain. Try one bottle and you'll be hooked for life!

Granite Shield's Kleen N Seal rejuvenate cleans surfaces, rejuvenates, helps repel dirt and stains. Keep the porous natural stones cleaner longer such as limestone, marble, terrazzo, travertine and grout.

Granite Shield's Silicabright restoration cream is easy to apply and deep cleans thoroughly. It quickly dissolves oxidation spotting and leaves the surface clean and repellent. Clears away permanent water spotting on glass, polished stone, stainless steel and fiberglass.

Granite Shield's Nustone Kleen neutral stone & tile cleaner is a unique, concentrated, no rinse cleaner intended for daily or weekly use on all quarry tile. Cleans the surface without acids, caustics, abrasives, bleach or ammonia.

Granite Shield's Granite Kleen all purpose household cleaner cleans and leaves a shine for granite, glass, stainless steel and mirrors. Use Granite Kleen and then Kleen N Shine on your granite and your granite will look brand new again.

Granite Shield's MicroArmor heavy duty germ fighter household cleaner for kitchen & bath, countertops and floors. Use MicroArmor for when heavy duty cleaning is needed on your granite and then Kleen N Shine and your granite will be so clean and be very repellent.

Granite Shield's Do It Yourself Shower Door Kit. Do you hate squeegeeing your shower daily? Hate the hardwater deposits sticking to your shower door when you don't squeegee? Well Granite Shield is your answer. Granite Shield's Do It Yourself Shower Door Kit can remove and eliminate hardwater deposits from sticking to your shower door. Purchasing the Do It Yourself Shower Door Kit includes Silicabright restoration cream which will remove hardwater deposits and Kleen N Shine all purpose cleaner and repellent spray will repel water keeping hardwater deposits from sticking to your shower door. Included in Granite Shield's Do It Yourself Shower Door Kit is everything you need to keep hardwater deposits from sticking to your glass shower door. Once the products from the Do It Yourself Shower Door Kit is applied you should squeegee and use Kleen N Shine at least twice a month so hardwater deposits don't stick to your glass shower door. Make your shower door easy to clean forever.

About The Granite Shield Process:

Craig Phillips is the creator of the Granite Shield permanent granite lifetime sealing process. Granite Shield was started and developed in 2002. Craig's background includes owning a custom shutter business for approximately 15 years and was a kitchen designer for Home Base and Home Depot for approximately 9 years. Having sold granite and engineered stone countertops for many years Craig noticed the main reason why the public does not choose granite for their countertop needs has been because of the high expense, maintenance and staining issues.

Craig developed back in 2002 the permanent sealing process for granite using different catalyzing polymers. Depending if the granite is considered light, medium or dark, each type of stone takes a different application process and then is capped with catalyzing polymers with a permanent carbon crystal sealant which then blocks the catalyzing polymer into the stone. The carbon crystal sealant forms a molecular bond with the granite which can not be removed thus creating a lifetime seal plus leaving your granite smoother, shinier, maintenance free and still able to breathe. Granite Shield is the first and only to have this process, don't be fooled by imitators even if it's a well known company. If it doesn't say Granite Shield, it's not permanently shielded with a no restriction lifetime warranty like Granite Shield. Granite Shield created a lifetime seal for your granite countertop so you will never have to seal your granite again. With other sealers, you should seal your granite every six months to a year. Even then, over-the-counter sealers or other "permanently sealed with a 15 year limited warranty granite countertop" will allow stains through, especially acidic juices, alcohol, vinegar and oil. Granite Shield is etch-proof on granite and back that up with a Lifetime Warranty. Granite Shield's sealing service and countertop retail stores have the best natural stone flooring and grout sealers available and is under warranty for 10 years, 5 years at 100%. Marble Shield for marble, travertine and limestone has a lifetime warranty.

Granite Shield is located in 45 states and in England and Ireland with 56 authorized applicators, 26 are authorized Granite Shield Countertop store fabricators. There are currently 5 Granite Shield Countertop retail showrooms located in Lake Elsinore California, Hemet California, Temecula California, Tucson Arizona and Reno Nevada. Coming soon to Las Vegas, Nevada and South Orange County, California.
