Massage, Facials, Spa Packages: Ideal Last Minute Holiday Gifts from Raleigh, NC to Beverly Hills

Massage, Facials, Spa Packages: Ideal Last Minute Holiday Gifts from Raleigh, NC to Beverly Hills. How to Choose the Ideal Spa Gift Certificate.

/24-7PressRelease/ - RALEIGH, NC, December 17, 2007 - Massage, Facials, Spa Packages: Holiday gift certificate. from Raleigh, NC to Beverly Hills. How to Choose the Ideal Spa Gift Certificate <http://www.bluewaterspa.com/raleigh-day-spa-gift>

Spa gift certificates are becoming more and more popular and are right at the top of everyone's holiday wish list. Spas offer stress-relief, pampering, and results. Spa gift certificates are a wonderful way to show someone special how much you care.

Visiting a day spas web site for a spa can give you an idea of the spa's environment, their experience, and philosophy. The spa experience begins when a guest enters the door. By taking a virtual tour, you can get an idea of what the experience will be.

Important Questions to Ask Before Purchasing a Spa Gift Certificate:

1) Can Gift Certificates <http://www.bluewaterspa.com/raleigh-day-spa-gift> Be sent immediately via email?

For those of us who wait until the last minute, gift certificates that can be purchased over the phone can be a big help. In most cases, gift certificates can even be emailed to ensure "on-time" delivery. Blue Water Spa in Raleigh, NC offers instant printable gift certificates.

2) Do the aestheticians (facialists) ever leave the room during a treatment?

The therapist should be in the room at all times delivering pampering, relaxation, and results. A client who is left alone can feel forgotten and uneasy and certainly they are not getting the best treatment possible.

3) Do Therapists (facialists, massage therapists, etc). have sales quotas? I know it's crazy, but it's true. Some spas actually have service providers on quotas

A Relaxing experience can quickly turn tense if a therapist on sales quotas begins to suggest additional treatments and products that won't benefit the client.

Add on treatments should be suggested only if they will truly benefit a client. Likewise, home care products can enhance the result of a treatment, but if the conclusion of a treatment includes stress to purchase products, much of the relaxation benefits are eliminated
