Website Popularity Soars with Forex Traders

Forex-Killer is a trading forex software system developed by Andreas Kirchberger that is successful in helping people trade online where people can start making thousands daily.

/24-7PressRelease/ - January 03, 2008 - The popularity of Forex-Killer.com has been surging in recent months, attracting thousands of people looking for ways to start trading the forex market. Founded by internationally known professional forex trader, Andreas Kirchberger, Forex-Killer is one of the most successful sites of its type on the internet today, is an award winning "work from home" solution, and is now rated #1 opportunity online.

Starting off as a forex advisor for Deutsche Bank, Kirchberger took a leap of faith and quit his job only to develop Forex-Killer; which is the only working forex signal generator on the market today. "To make money consistently and increase your bank account, you need a proven AutoPilot No-Guesswork System." He now trades forex for a living and wants to share his success to everyone and show them how to create income in the forex market.

Forex-Killer.com is used by beginners and the advanced alike so no experience is needed. It works with all trading platforms, it works with any country and can be used with any broker. It's a high profiting system where you can earn thousands daily. "It's reliable and consistent. It's a stand-alone software."

He developed the software so it can be simple to use for just using it a few minutes a day. This software allows you to generate your own signals with your own market analyzing software. He says, "And the best part is that our software is so easy to use, even a trained monkey would have no problems. Just one, two, and three."

His site leads the prospective customers on how his software can relieve you of all existing problems and earn you limitless income. He also gives them actual examples of how others have made money trading forex using real interviews on his site. Kirchberger added bonus is an E-book where one can learn the step by step basics of forex trade, forex glossary, where to trade, and much more. He says, "We're constantly improving the efficiency of the software as we use it to trade ourselves." He offers free updates for life as well.

Today, Kirchberger continues to make thousands of dollars trading forex and is an example of what can happen if one follows his software.
