Granite Shield - Germs and Bacteria Protecting your Granite

Concerns about germs, mold, bacteria and other toxins absorbing into granite

/24-7PressRelease/ - CANYON LAKE, CA, January 11, 2008 - Granite Shield can protect surfaces in kitchens and bathrooms, making them ultra hygienic and free of bacteria, mold, viruses, and other toxins. With the Granite Shield sealing process your granite will be smoother, shinier and maintenance free. The revolutionary sealing process makes your kitchens and bathrooms look better than new and vibrant for the life of the countertop. Granite Shield's sealing process is easy to apply to an existing countertop and safe for humans and pets. The average kitchen countertop takes 1 to 2 hours and is ready to use immediately. Your granite countertop will be super hydrophobic, stain proof and preventing liquids, germs, bacteria and other toxins from getting into your granite. With granite sealed by a Granite Shield authorized applicator or granite by Granite Shield Countertops your granite will be safe and not harbor bacteria. Granite Shield has less than a 1% failure rate with all of their customers and they are a proud member of the Marble Institute.

Granite Shield was actually the first company to offer granite that never needs to be sealed again if sealed with the Granite Shield process. The Granite Shield process was created in 2002 by Craig Phillips and has no restrictions and is maintenance free plus you can even use Windex and Clorox wipes. Stonemark By Innovative Stone with Permashield, Granite Certified By DuPont, Cosentino Sensa with Sensaguard still say you need to clean up spills immediately on their granite countertops and have requirements or their stain resistant warranty is void. Granite Shield has no restrictions on maintaining their sealed granite and you don't have to worry about wiping spills up immediately.

Many of the Home Depot kitchen designers have and do recommend Granite Shield since 2003. Even the West Coast Vice President of The Home Depot has had his home sealed by Granite Shield approximately in May 2005 and recommends Granite Shield.

Below is the use and care guide for the following companies

Granite sealed by Granite Shield: <http://www.graniteshieldcountertops.com/graniteshielduseandcare.html>

Stonemark By Innovative Stone with Permashield: <http://stonemark.com/use-care.htm>

Granite Certified By DuPont: <http://stonemark.com/use-care.htm>

Cosentino Sensa with Sensaguard: <http://www.cosentinowarranty.com/information/sensa.cfm>

Harboring bacteria is a concern? The kitchen and bath is a wonderful place to harbor all sorts of exotic bacterial living organisms. Granite Shield has sealers for natural stone countertops and even engineered stone, natural stone flooring, grout, stainless steel, glass call all be sealed by Granite Shield to be super hydrophobic and remain repellent, harsh chemical free and easy to clean.

Granite Shield is located in 45 states and in Canada, Australia, New Zealand, England and Ireland with 56 authorized applicators, 26 are authorized Granite Shield Countertop store fabricators. There are currently 5 Granite Shield Countertop retail showrooms located in Lake Elsinore California, Hemet California, Temecula California, Tucson Arizona, Reno Nevada and opening soon in Mission Viejo California, Las Vegas Nevada and Orlando Florida.
