Louisville Dentist inspires children with endearing character, Pearl White

Dr. Christian W. Hahn, a dentist in Louisville, and his wife, Robin Hahn, a dental hygienist, have created a new role model for children to learn about the world of dentistry - Pearl White.

/24-7PressRelease/ - LOUISVILLE, KY, January 19, 2008 - **Going to the dentist can be a frightening experience for children** - *White coats, scary tools, new smells and noises* just to mention a few. It does not help that many adults pass on frightening stories to their children about bad experiences they have had in the dental chair in hopes that they will learn to just suddenly care more about their teeth, brush better and eat right. **Few good role models exist for children**, and even fewer exist that tackle the world of dentistry.

Pearl White, a *trendy little tooth*, was **created by Christian W. Hahn, DDS and Robin L. Hahn, RDH**, to *teach children about cavities, cleanings, eating healthy and many other aspects of oral health* that have a great impact in not just your smile but your entire health. **Understanding the effects of drinking soda, eating candy and not brushing your teeth can almost eliminate the need for uncomfortable and costly dentistry later in life.** Which parent would not want to save their children from as much discomfort as possible? Pearl White teaches children, and adults, these lessons in a fun environment. It is the goal of Christian and Robin Hahn to give children a head start with their lives by eliminating cavities and empowering them with a beautiful smile.

Dr. Hahn believes the best type of dentistry is no dentistry at all, followed closely by preventative treatments such as sealants and micro fillings. Children still have the opportunity to begin life with a clean slate and no cavities - it is up to us to teach them how to achieve this goal. *Every patient that Dr. Hahn sees is educated on the etiology of their situation not just the remedies.* You need to be able to figure out why things are happening prior to fixing them otherwise it will happen again.

The Adventures of Pearl White, Plaque Attack, the first book released by Dr. Hahn, is available through his office, Ideal Dentistry in Middletown, or online from <http://www.lulu.com/content/1872175>

The Center for Ideal Dentistry, Dr. Charlie Vittitow and Dr. Christian Hahn, is the only accredited (through the American Academy of Cosmetic Dentistry) cosmetic dental practice in the greater Louisville area.
