FEECO International Launches Global Manufacturing Network

FEECO creates new Manufacturing Marketplace to help "Bring Global Relationships Together"

/24-7PressRelease/ - BREEN BAY, WI - January 23, 2008 - FEECO International just launched MFG.FEECO.com which is a global online manufacturing network that provides registered companies an opportunity to submit bids on open RFQs. Unlike most manufacturing networks, FEECO's manufacturing marketplace lets suppliers register and submit bids on open RFQs for free - with no annual supplier fee!

Manufacturing has in the past relied on relationships as the sole means of marketing to buyers. Now, the online marketplace has changed manufacturing and has leveled the playing field for suppliers and shops. Jobs that use to be sourced locally are being opened up on a global level.

MFG.FEECO.com is your connection to free high-quality leads that are "Bringing Global Relationships Together" and can help your company grow.

It only takes a few minutes to create a free supplier account and select your areas of expertise (ranging from: bearings, sheaves, v-belts, conveyor idler rolls, gear reducers, motors, bag houses, silos, fans, blowers, fabricators, conveyor belt and pulleys, belt alignment controls, plugged chute detectors, safety stop controls, belt v-plows, switches, burners, screw conveyors, refractory installers, fluid bed dryers, sprockets, etc...). When FEECO has a RFQ that matches your criteria they will email you an invitation to bid. It's that easy, why not register and expand your companies' presence across the globe.

About FEECO International:

At FEECO, we specialize in turning problems into opportunities. Our mission is: "To provide innovative solutions that meet our customer needs by supplying high quality products and services at a competitive price." We also specialize in meeting your needs on time and within budget. Since 1951, we have been designing, manufacturing, marketing and installing equipment and systems throughout the world.
