Magnum IQ (MIQ) Automated and Duplicated

Magnum IQ now has a lead system and live personnel to close the deals for you.

/24-7PressRelease/ - January 24, 2008 - Not only does Magnum IQ have a business model and product with no competition, but they now have a system that generates leads and closes them for their members.

"It just keeps getting better and better every day with Magnum IQ. We just started this new system that rolled out where you get leads and live support to close the deals for you. Of course I will always talk with every member and this is just the system that frees up my time to do that." Randy Neale says.

"My wife, Courtney, and I are looking for around 30 people to mentor that want to be millionaires in 2008. Magnum IQ (MIQ) combined with our marketing system and the live support system that is in place, will do just that. Now we will have the time to spend coaching and motivating our team to help them achieve great success." Randy says.

Magnum IQ's online webucation products combine several multi-billion dollar industries into one and is educating people around the globe. No where else will a person be able to find a compensation plan and system that is so unique and beneficial to its members.

During its pre-launch phase, new members will be able to double their fast start bonuses and take advantage of the live system that basically closes the deals for them. Talk about a quick way to get your business up and running.

"One of my biggest fears is going into retirement with no money or nest-egg. My wife and I have been self-employed for years now and it's amazing how time flies by so quickly. Without the benefits of corporate America and some of their vesting programs, it falls on us to set that up. I'm only 38, but I need to have a continual focus on saving for retirement. Magnum IQ is literally going to be the vehicle for building that nest-egg." Randy states.

"We don't want to retire and scrape by. We want to retire and enjoy everything life has to offer and have fun in the mean time. Magnum IQ will be around for a very long time and it's worth our time to help our team reach their goals. If they're not successful, we won't be successful." Courtney states.
