**AIT Announces Launch of New Product Lines**

*AIT announced the launch of a new line of VPS & Enterprise Servers. These new plans allow for multiple websites to be hosted at industry low pricing.*

**/24-7PressRelease/** - FAYETTEVILLE, NC, January 27, 2008 -- Today AIT (<http://www.AIT.com/searchplans.php>) announced the launch of a new line of VPS & Enterprise Servers. These new plans allow for multiple websites to be hosted for a low as \$3.33 a month. Each account benefits from no setup fees and flexible billing terms. Features include twenty four hour toll free support, FREE web site builder, dozens of website templates, and a FREE shopping cart system. Every plan is equipped with huge volumes of data transfer ranging from a low end of 7,000 GB to Unlimited. The offering is topped off with a gigantic storage ability of 600 GB for small business VPS and 2 x 160 GB drives for the Enterprise class. AIT has also included many marketing tools to assist any size business gain exposure while benefiting from an industrial strength infrastructure.

"To assist with the marketing and sales of any business, we are offering all new AIT hosting accounts thousands of dollars in advertising credits on the tyBit search engine ([www.tyBit.com](http://www.tyBit.com)) and on our affiliate web properties," said Kitti Jo Finch, General Manager of tyBit, Inc. "It's just a great deal, you get tons of disk space, tons of features and benefits most of which can be resold under your own private label if you decide to take the Entrepreneurial road... but the big thing is value." In addition to the Ad Credits give away, tyBit officials announced yesterday a Short Video Contest with a Cash Prize of \$10,000.00 - to learn more about the rules and regulations of the contest, please visit

"To assist with the marketing and sales of any business, we are offering all new AIT hosting accounts thousands of dollars in advertising credits on the tyBit search engine ([www.tyBit.com](http://www.tyBit.com)) and on our affiliate web properties," said Kitti Jo Finch, General Manager of tyBit, Inc. "It's just a great deal, you get tons of disk space, tons of features and benefits most of which can be resold under your own private label if you decide to take the Entrepreneurial road... but the big thing is value." In addition to the Ad Credits give away, tyBit officials announced yesterday a Short Video Contest with a Cash Prize of \$10,000.00 - to learn more about the rules and regulations of the contest, please visit

Company officials indicate that AIT has been in business since 1995 and developed one of the first true Virtual Private Server solutions in the industry where clients get the access and control they need to make their server do what they want it to do. Each Virtual Private Server (VPS) has its own IP Address, Domain Name, and Web Server with complete logs and configuration files, FTP Server, POP Server, and SMTP Gateway. In addition, the AIT VPS solution offers up the ability to create virtual domain web hosts, virtual e-mail accounts, and virtual FTP logins along with a variety of other features all under one plan.

"Most providers only offer virtual hosting, which is merely one simple feature of the VPS. A real VPS is not simply a virtually hosted (Virtual Host) site on a web server we control; we give clients 'virtual root' access. They will see directories such as 'dev', 'usr', 'bin', etc. In the 'etc' directory, they will find their own 'passwd', 'aliases', and 'sendmail.cf' files' which in turn allows them limitless flexibility to add as many POP accounts, aliases, and autoresponders they want. With AIT Virtual Servers, customers will also find an entire 'usr/local/etc/httpd' directory structure, including their own 'httpd.conf', 'srm.conf', 'access.conf' files, their own logs and 'cgi-bin'," said Mike Roberts, CIO of AIT. "We have developed this technology over 12 years and in terms of value, our prices are the absolute lowest in the industry," said Sean McCoy Chief Marketing Officer.

tyBit (<http://www.tyBit.com>) is affiliated with AIT ([www.AIT.com](http://www.AIT.com)), a web hosting and domain registration company that has achieved 11 straight years of sustained profitability and has generated \$100s of millions in revenue while creating a profound economic influence on its surrounding community. AIT has been named 2 times to the Inc. 500 list of fast growing firms, 3 times to the Deloitte & Touche Fast 500 list, and has been previously named as the NC Entrepreneur Firm of the Year. Additionally, CEO Clarence Briggs recently returned from Washington, DC after briefing Senators Elizabeth Dole and Richard Burr about the formation of the Briggs-tyBit Charitable Foundation for Education. The mission of the foundation is to provide 30 to 40 % of tyBit 's gross revenues to fund education in North Carolina, and eventually across the nation.press release distribution by press releasepoint (<http://www.pressreleasepoint.com>)
