TargetMarket.biz QUICK SHOPPING CART NOW LINKS WITH QUICKBOOKS

Data intergration from website shopping cart to QuickBooks accounting software

/24-7PressRelease/ - HAMDEN, CT, February 01, 2008 - TargetMarket.biz "Bringing businesses to the Internet", is helping small businesses easily open, manage online stores and the accounting.

Make tax time efficient with data integration from shopping cart to accounting. Quick Shopping Cart , the online store utility, now interacts with QuickBooks financial software. This technology allows business owners to save valuable time and more effectively manage their Web store by synchronizing critical business data between their store and QuickBooks. Users can also take advantage of a QuickBooks Merchant Services account to accept all major credit and debit cards and reconcile Quick Shopping Cart payment data directly in QuickBooks. No more manual data entry so the data is in and ready for tax time.

Quick Shopping Cart offers an easy-to-use wizard for users to quickly develop a successful Web store. In just six steps, merchants can go from purchasing the product to having a fully developed online presence. If you need help phone customer service is available to help every step of the way.

For more information on TargetMarket.biz data integration to QuickBooks, visit <http://www.targetmarket.biz/quickbooksintegration.htm>

About TargetMarket.biz

TargetMarket.biz is an Internet marketing company-supplying Internet tools and solutions for small to medium sized business. Especially Services offered are all of the things needed to be on the Internet and be found on the Internet. With this the need to manage all the options can be very daunting. So two options are available. Self-service, pick what you want and we work with you to do it for you. Self directed service selection and implementation is available any time you want to make a change even the middle of the night. Support for these services are available 24/7 any day of the year with total phone tech support as well as e-mail response if you prefer. The other option is to have us implement for you anything from a simple web site to a full data integration package. This data integration can be extended to go from the web site to a full CRM tool to shopping cart to QuickBooks with no need to re-enter information.

TargetMarket.biz provides Internet marketing services for small business and contractors. For further information, please call (203) 906-6079
