Pro Pipper will showcase high end products and services for traders.

Las Vegas, Nev. - Pro Pipper will showcase high end products and services to traders and the financial community.

/24-7PressRelease/ - LAS VEGAS, NV, February 02, 2008 - Pro Pipper, a Forex forecasting and analysis website, will start publishing articles and stories on high end products and services for traders. Although Pro Pipper's analysis caters strictly to the Forex markets, the articles and stories will be of interest to all traders.

"We're trying to give traders a break from the constant processing of information on a daily basis," says Ross Yamashita, Managing Member of Pro Pipper. "Traders are unique, hard-working individuals and with the amount of stress they battle on a daily basis, they need to take time to relax and getaway."

That is where the products and services featured on Pro Pipper will be a great start for traders. It will inform them of what the latest and greatest is in high end products and services.

Think your product qualifies as something meant for a trader? Think again. You're catering to a tough clientele that knows exactly what they want. From real estate, exotic vacation spots, private aircraft to high end personal grooming products, traders expect the best.

If you have a high end product or service you think would fit the lifestyle of a trader, contact Ross Yamashita at Ross@ProPipper.com. Pro Pipper is currently only looking for recreational (i.e. non-trading) products and services at this time.

Selected products and services will have a feature story written about them and posted on ProPipper.com.

About Pro Pipper

Pro Pipper (www.propipper.com) is a Forex forecasting and analysis website. Pro Pipper utilizes Elliott Wave analysis and a variety of technical indicators over multiple time frames to give traders a distinct advantage. Pro Pipper is a regular contributor to major Forex portals and publications, such as FX Street and Pit News and frequently updates their forecasts for members. For more information about Forex trading or to sign up for our analysis, visit www.ProPipper.com.
