**/24-7PressRelease/** - PLYMOUTH, IN, February 05, 2008 - Ever since its inception, topseos.com has been synonymous with a one-stop shop for quality internet marketing and service providers. Keeping up with this tradition, topseos.com is back, once again, with the February 2008 ranking of the leading SEM Hosting firms. The goal of the list remains the same: to take all the hassle out of finding the best internet marketing vendors.

It almost goes without saying that building and maintaining a website is not an easy task. This is where SEM Hosting comes in as the intelligent and efficient method of maintaining a website. In fact, hiring a SEM hosting firm can prove to be more cost effective than maintaining the website internally.

Flexibility and receptiveness are two extremely important features of SEM Hosting and a good SEM Hosting firm is one that understands this. The major advantage of SEM Hosting lies in the fact that clients can focus their time and efforts on other important tasks rather than maintenance of the website's infrastructure.

Amongst the many different types of SEM hosting that are available to clients are dedicated, collocated, managed, and shared (or virtual) hosting. The degree of involvement that the hosting firm has with customers' services is what differentiates one type of hosting from another.

Here's the list of the top 5 SEM Hosting firms that have been selected for February 2008:

1. FastServers.Net - Illinois
2. Rackspace Ltd.- Texas
3. Hosting.com - Kentucky
4. GoDaddy.com Inc. - Arizona
5. Aplus.Net - Kansas

Reliability and quality of topseos.com's output can be gauged by the popularity of the ranking. A meticulous evaluation process is what leads to the ultimate choice of the top 5 finalists. These are the criteria based on which the candidates are chosen:

- Flexibility in maintaining changes to websites
- Stability
- Ability to track site statistics
- Reasonably priced
- Flexibility
- Usability
- Overall performance

Firms that specialize in SEM Hosting and wish to be considered for the topseos.com rankings can complete an application by registering as a service vendor and applying for rankings at:
