**Luit Infotech announces the release of LuitDox SaaS on-demand Document Management System**

*LuitDox SaaS is a web based on-demand Document Management System that is offered in a Software-as-a-Service (SaaS) model over the Internet at a low monthly cost without having to worry about high costs of hardware, software and maintenance.*

**/24-7PressRelease/** - CHENNAI, INDIA, February 14, 2008 - Luit Infotech announces the release of LuitDox SaaS - a web based on-demand Document Management System. LuitDox SaaS is offered as a SaaS (Software-as-a-Service) powered Internet service to enable organizations to collaborate on and share documents. The online file storage and retrieval features of LuitDox SaaS are designed to facilitate quick uploading and easy management of documents. This service is especially suitable for organizations who would not like to maintain an in-house infrastructure for hosting and managing a web based application.

LuitDox SaaS is very easy to use and intuitive. It is a web based document management system and can be accessed via a standard web browser. There is no need to install any third party software to access LuitDox SaaS.

LuitDox SaaS is priced at US\$20 per user per month (minimum of 2 users and 500 MB web space per account). There is no limit on the number of users in LuitDox SaaS.

LuitDox SaaS ensures very fast ROI for organizations, as it helps them manage their valuable digital assets at a low entry cost and zero infrastructure cost. They can access their vital business content from anywhere in the world via a secure access controlled system. Using LuitDox SaaS, organizations can prevent the loss of vital business content, increase productivity and efficiency of the workers, achieve cost effective scalability and improve collaboration amongst users to drive project efficiency.

LuitDox SaaS ensures that the right content is available at the right time to the right person to make the right person and drive business value.
