CISCO CERTIFICATION FROM ABCO TECHNOLOGY: CREATING TRAINED AND EXPERT IN IT WORLD

ABCO Technology, Los Angeles, CA is a leading Computer Training Center provides computer training & IT Training like Computer Certification Courses, Cisco certified courses, Microsoft certified course and more

/24-7PressRelease/ - LOS ANGELES, CA, February 16, 2008 - As with just about the whole thing on the internet, there is so much information you can get lost before you even know where you are going. In searching for links for this site I have come across some really great computer certification sites and some really terrible sites. There are a few which stand out as being especially helpful, and most significantly, are easy to access and provide the majority of their content for free. ABCO Technology is one of the leading Computer Training centers who pride itself for providing hands-on practical Cisco certification & IT Training to both individuals as well as corporations.

Cisco is the world's largest and premier manufacturer of routers, bridges and switches for the Internet .Cisco is the leader in the Networking Industry. It has replaced Novell and still seems to hold on to its position. It is better known for its high end routers. During the internet boom the fortunes of this.

Cisco certification tests are prepared for a more practical approach which gives most of its successful candidates a preparedness for real time eventualities. These professionals can plan, design, connect, maintain and troubleshoot small, medium to large networks. Certification Cisco test are varied with CCNA certification, Cisco CCIE and CCNP certification being the most sought after by the industry.

One who got certified form ABCO Technology He/She will able to to achieve....

- * Cisco Certification gives you a better pay.
- * Cisco Professionals position as highest paid employers
- * Cisco Certified is a respectable position in the Networking industry.
- * In case you are already in the industry, Cisco Certification gives you 15% to 20% increase in salary and other benefits.
- * Surveys speak one who get Cisco certified from ABCO Technology they can able to earn average incomes of CCNA- \$47,000; CCIE- \$65,000; CCNP-\$54,000

Level of get training -Cisco Certifications are presented in an increasing level of expertise

- * Associate level is the apprenticeship or foundation level. The corresponding certification is CCNA-Cisco Certified Network Associate and CCDA-Cisco certified Design Associate.
- * Professional level certifications are for those who have passed out the foundation level and have enough of experience in the industry. The corresponding certifications are CCNP-Cisco Certified Network Professional, CCDP- Cisco Certified Design Professional, CCIP-Cisco Certified Internet work Professional, CCSP- Cisco Certified Security Professional
- * Expert level is the highest category of certification; the corresponding certification is CCIE- Cisco Certified Internet work Expert.
- * Specialist Certifications are meant for special topics or areas in the industry that require specific knowledge. There are various certifications depending on the type of specialization. These are in wireless technologies, VoIP and other technologies.
