**Online Poker Echeck - What sites accept instant echecks**

*Pokerecheck.com has launched the first ever information source for online poker echeck users looking to find poker rooms that accept echecks. In it they review the top poker brands and if they accept echecks or not.*

/24-7PressRelease/ - March 09, 2008 - Online poker eChecks are fairly new to the online poker world. [PokereCheck.com](#) is extremely excited about the impact this will have for online poker as it makes depositing for US players much more accessible. Poker eChecks are the easiest, fastest, and most secure way to deposit on your preferred online poker site. All you need to deposit is your account number and routing number from your bank account, it is that simple. Generally you will need to enter your account number, routing number and the amount you wish to deposit in the entry fields on the poker eCheck deposit page. Deposits are instantly available to play even before your depositing transaction clears. Online poker eChecks have a combination of laws regarding electronic and paper transactions. These laws protect both the depositor as well as the financial institutions. Currently there are only two sites that offer online poker eChecks:

1. [Full Tilt Poker](#)
2. [Poker Stars](#)

Both sites are among the leaders in the online poker world. They both offer great software and game selection. Presently, these are the only sites that offer the online poker echeck option, however more are sure to follow.
