Canadian Wins Almost \$200K Spinning Slotland's Treasure Box -- Video Poker Regular Gets Lucky when He Switches to Slots

Spring time in Canada is looking that much sweeter for a video poker player who switched to slots on a recent spring day and won a nearly \$200,000 progressive jackpot at Slotland.com. Slotland's jackpot is hit, on average, every six or eight weeks so many players sensed this win was overdue.

/24-7PressRelease/ - LONDON, UK, April 02, 2008 - Spring time in Canada is looking that much sweeter for a video poker player who switched to slots on a recent spring day and won a nearly \$200,000 progressive jackpot at Slotland.com. Slotland's jackpot is hit, on average, every six or eight weeks. Since it had been more than that since an American player won the last \$100,000 jackpot, many players sensed this win was overdue.

"It's hard to resist when the jackpot gets to big numbers like that," said Martin Smith. "Lots of players play a little more when they feel like there's going to be a big jackpot winner any second. They want it to be them! So we'd been very busy in the days before the win."

"I usually stick with video poker," said the player known as TEXASTEASER who's been a regular at Slotland.com for five years. "I don't know what made me think I should take a spin or two on the slots that day instead, but I'm sure glad I did!"

The lucky canuck won the biggest Slotland progressive jackpot ever: \$195,083 (126,910). He was playing Treasure Box, one of the most popular slot machines on the site which now features 6 unique slot machines and 4 video poker games. JAMKAT2 won a \$113,418 (89,067) progressive jackpot playing "Treasure Box" last year. Prior to this springtime windfall, the biggest jackpot ever won at Slotland was \$179,166 won by TOPNOTCHED playing the Golden 8 slot machine last May.

The progressive can be played on any of the slot machines and video poker games on the Slotland.com web site. Most of the games are also available on mobile phones and PDAs where they are tied into the same progressive jackpot. The next big winner could be at their computer or anywhere they take their mobile phone. The last player to win a large jackpot playing on their phone was OLYMPIAGOLD who won \$163K playing the mobile version of Lucky Stars in early 2006.

Re-set at \$50,000 after each win, Slotland.com's progressive jackpot is already back up to over \$70,000 (45,000).

Representatives of Slotland.com are in Amsterdam this week where they are exhibiting at the Casino Affiliates Conference.

About Slotland.com

Established in 1998, Slotland.com is renowned for its fairness, security and sincerity. Slotland.com's progressive jackpot is currently won on average every six weeks and usually stands at over \$100,000, making it one of the most frequently won jackpots on the Internet. In 2005, the pioneering entertainment company introduced its first slot machine for the mobile phone/PDA platform. Slotland.com has been voted "Most Unique Slot Site" and "Best Progressive Jackpot Site" by Strictly Slots Magazine readers, named "Best Web TV" in a Gambling Online Magazine poll, and selected as a finalist in the ME Awards "Best Mobile Gambling Company" category. The philanthropic company continues to sponsor the school and community they built in Malawi (help-malawi-children-charity.org).
