Reservations at Best Rates Now Available on AIM Conference Center Baguio's Website

AIM Conference Center Baguio improves its customer service offerings on its website (www.accm.aim.edu.ph/accb/index.htm) with the addition of a reservation system that offers guests low rates.

/24-7PressRelease/ - BAGUIO CITY, PHILIPPINES, April 03, 2008 - The Asian Institute of Management (AIM) Conference Center in Baguio City recently added to its website offerings (www.accm.aim.edu.ph/accb/index.htm) a reservation system that delivers the most competitive rates online. This new system doesn't stop with just low rates. Its cutting-edge technology also improves the whole booking process, making it easier and more convenient for guests.

Leisure tourists and itinerant business executives planning to book at AIM Baguio also get to view two weeks' worth of real-time room availability matched with the low rates. This feature gives guests the flexibility to choose their accommodations according to their tastes, and more importantly, their budgets. A 10% deposit ensures that their selected room type is available as soon as they arrive to the hotel. This affordable booking guarantee is deducted from the total room cost.

After the transaction, guests immediately receive an automated e-mail confirming their room reservations.

For added convenience, the system is supported by a professional customer relations unit that addresses reservation-related concerns. Among these concerns is the modification of booking arrangements, which comes at no extra cost if done within the allotted grace period.

AIM Conference Center Baguio is known for providing top-quality accommodations, superior conference facilities, and excellent service. Located atop a hill within Camp John Hay, the hotel (also known as Igorot Lodge) offers cozy and aptly furnished rooms with great views of the club's sprawling golf course. The conference facilities, meanwhile, come fully furnished and are ideal for seminars, discussions, creative workshops, and even social events. Services offered include airport transfer, car rentals, laundry service, and travel and tour assistance. For more information, visit the website (www.accm.aim.edu.ph/accb/index.htm).

AIM Baguio's new system was enabled by DirectWithHotels, its direct reservations performance partner. The company empowers accommodation providers to maximize the potential of their websites to deliver best rates and instant confirmation and, in turn, increase occupancy and bring in profit. Log on www.directwithhotels.com to find out more.
