**Pickle Valley Offers Domain Name Registration And Web Site Builder For .MOBI.
Helping .MOBI Owners Register Their Domain Name And Build Mobile Web Sites**

Pickle Valley Domains and Web Hosting offers .MOBI domain name registration and the popular WebSite Tonight product, providing key features for those wanting to create a .MOBI web site. It's easy for anyone with no skills to register, design and build a .MOBI web site at www.picklevalley.com.

/24-7PressRelease/ - SCOTTSDALE, AZ, April 03, 2008 - Pickle Valley Domains and Web Hosting offers .MOBI domain name registration and the popular WebSite Tonight product, providing key features for those wanting to get involved in the .MOBI revolution.

Now anyone can buy a .MOBI domain name and then design and create a .MOBI-compliant Web site easily and affordably. Pages designed for .MOBI are optimized for on-the-go devices, making them easy to load and navigate from the smaller, more limited screens of wireless phones and PDAs.

Companies large and small and across all industries can embrace the power of the .MOBI top-level domain. Using WebSite Tonight offered by Pickle Valley Domains and Web Hosting, users can easily create Web sites that are formatted specifically to provide on-the-go mobile content and services. For example, Web sites that are .MOBI compliant are designed with content and graphics suited for a two-inch screen rather than a 20-inch desktop monitor. Long download times and excessive scrolling can be a thing of the past.

"I'm very excited about what Pickle Valley Domains and Web Hosting has to offer with WebSite Tonight . It's easy for anyone with no skills to register, design and build a .MOBI web site", said Carla Birchfield, President of Pickle Valley.

Other enhancements to WebSite Tonight include calendar control, photo album enhancements, animated splash pages with sound, music and video support and an expanded workspace.

For more information about the WebSite Tonight , visit www.picklevalley.com or email us at info@picklevalley.com.
