American Debt Enders Expands Referral Services To Include Bad Credit Car Loans and Secured Credit Cards.

Expanded services are essential for helping those needing debt relief and an ability to rejoin the world of wise users of credit.

/24-7PressRelease/ - April 04, 2008 - American Debt Enders has expanded its ability to offer a wider range of debt relief products by becoming an agent of VRTechMarketingGroup. This will add to our existing array of relief products offered through affiliates. While Debt Management and Debt Settlement have been our mainstays, it is ever more important to offer a wider range of services to those oppressed by debt. People enrolling in a debt settlement program often have less than stellar credit, and so require more than just debt settlement and debt elimination.

People need an avenue of full restoration to the credit world. Hence, we can now offer in addition to debt settlement, debt management and credit restoration a bad credit car loan and secured credit card. VRTechMarketinggroup offers credit restoration services through United Credit Restoration Services, simply the best Credit Restoration Program anywhere in the US, which comes with an outstanding money back guarantee. The bad credit car loan is for new or used cars and the interest rate is tied to the credit score with an opportunity to refinance the car loan to a lower rate once the credit score has improved. The application can be done completely online with an approval and echeck in 24 hours. For those who would like to apply please visit: <http://www.vrtechmarketinggroup.com/aciantro/> and click on car loans to apply. Additionally, for those in need of a secure credit card to get themselves past the period of not being able to apply for a conventional bank issued card, they may also apply online through the previous mentioned site.

Anyone that needs to speak to a debt counselor can visit: www.americandebtenders.com, or call 1-877-766-2465, or email: help@americandebtenders.com.

About American Debt Enders

American Debt Enders is a free counseling referral service available to anyone oppressed by debt that needs help in dealing with there debt problem.
