**POSitive Resellers Complete Second PRM Multi-Site Certification Class**

*POSitive Software Company conducts first entirely web-based certification class. Four more resellers are now certified to sell Multi-Site product.*

**/24-7PressRelease/** - RICHLAND, WA, April 04, 2008 - POSitive Software Company conducts first entirely web-based certification class. Four more resellers are now certified to sell Multi-Site product.

POSitive Software Company is pleased to announce that four more resellers have passed the second POSitive Retail Manager Multi-Site certification class, held March 26 and 27. This was the first time that POSitive Software has conducted a major training event entirely over the web, involving locations in Washington, California, Ohio and England.

"POSitive Retail Manager Multi-Site is a complete full-featured solution for multiple retail sites", said Wayne Heaton, Dealer Sales Manager for POSitive Software. "PRM Multi-Site connects stores, sales offices or warehouses to a central database, so that all locations can share the same information in almost real-time."

"We packed a lot of information into two days of intensive hands-on training", added Mr. Heaton. "Our technical staff did an outstanding job of using free internet technology to create a fully interactive conferencing system. Web cams were used so that all attendees could see and hear each other, and remote desktop technology allowed us to monitor the progress of each attendee."

The four resellers who completed the latest PRM Multi-Site certification class are:

USA:

G7 USA

Ryan Spikowski  
Shawn Spikowski  
Westlake, Ohio

MDTCS

Festus Udenze  
Mira Loma, California

United Kingdom:

Add Technology  
Sharon Jeffs  
Manchester

Vuetek

Geoff Whalley  
Ron Edwards  
Dan Howarth  
Bolton

POSitive Multi-Site is part of the POSitive Retail Manager suite of products and services designed to automate the point of sale, credit card processing and e-commerce needs of small to medium size retail stores.
