POWER TAX RELIEF SAVES GOURMET CHEFS MARRIAGE

National Tax Resolution Specialist Slash IRS Debt by \$120,000

/24-7PressRelease/ - LOS ANGELES, CA, April 07, 2008 - Power Tax Relief, the leader in tax solution expertise, is successfully providing tax payers with the framework to get rid of their State Department of Taxation nightmares indefinitely. With each tax solution individually analyzed to suit each situation, it is easy for the uniqueness of each success story to shine through.

North Carolina married couple Mario and Darcy Brennanwante dreamed of opening up a small business. Their dream finally came true when they opened up the restaurant Mario's. Little did they know that the state reformed their sales tax laws leaving their small business hanging by a thread.

"When the state decided to audit our business it was no big deal," said Mario. "We thought it was just standard procedure, but when our accountants told us that this was serious, we started making calls immediately. Seven tax attorneys later we find out we have a debt of \$140,000."

Problems like the one that the Brennanwante's experienced are more common than most tax payers recognize. That is precisely where Power Tax Relief steps in to alleviate the stress brought on by surprise IRS amendments.

"With the help of Power Tax Relief we were able to reduce our tax debt down to an unbelievable \$20,000," said Darcy. "We were going to lose the house, our car and we were basically fighting for our financial freedom. Slowly our marriage was deteriorating, but luckily Power Tax Relief saved our marriage and our lives."

About Power Tax Relief: Power Tax Relief is a full service tax resolution firm, comprised of attorneys, enrolled agents and tax professionals. PTR is recognized as the most trusted name in the business, and has taken this designation seriously. PTR has successfully helped thousands of businesses, and individuals resolve their debt with the IRS and State. For more information, call: 800-284-0802 or visit online at: www.powertaxrelief.com
