www.Motorweb.com Includes Bill Me Later as Customer Finance Option

www.motorweb.com has teamed up with Bill me later to provide customers with a convenient financing option to get them on the road to building their dream car.

/24-7PressRelease/ - PHOENIX, AZ, April 09, 2008 - www.motorweb.com has teamed up with Bill me later to provide customers with a convenient financing option to get them on the road to building their dream car.

Bill Me Later enables consumers to conveniently and securely pay for purchases online and via phone without the need to provide credit card information. To take advantage of the special financing option, customers simply select the Bill Me Later option at the time of purchase. Bill Me Later allows internet etailers a way to simplify the payment experience to increase sales, customer loyalty and maximize profits.

"Many of our customers are preparing for the summer show season and we wanted to find a way to help make big ticket purchases a bit more affordable for our customers," said Bryan Ellis, Vice President of Operations at www.motorweb.com. "We have partnered with Bill Me Later to offer our customers this special financing option and we hope this will encourage even more people to try this convenient payment method."

About Bill Me Later

Bill Me Later, Inc. is a rapidly growing technology company helping to connect leading merchants with high value customers by improving the purchase experience. Bill Me Later, Inc.'s payment and marketing technology solutions help establish and maintain trusted relationships between hundreds of top tier retailers and high value customers at the point-of-sale. Millions of consumers rely on the safety and convenience of Bill Me Later, Inc.'s payment solutions when shopping online, via phone and in-store. The solutions are the first new payment methods since credit cards to be so broadly available within the United States. For more information, visit www.billmelater.com.
