**SAP Business One Implementation in Illinois, Indiana, Wisconsin, Michigan - Alba Spectrum**

*We believe that this Small Business ERP and MRP could fit to the majority of Illinois downstate businesses in Springfield, Peoria, Morris, Ottawa, Marseilles, Utica, LaSalle, Peru, DeKalb, Dixon, Rachele, Normal, Champaign, Vandalia, St Luis, Pontiac, Rockford.*

**/24-7PressRelease/** - NAPERVILLE, IL, April 14, 2008 - We believe that this Small Business ERP and MRP could fit to the majority of Illinois downstate businesses in Springfield, Peoria, Morris, Ottawa, Marseilles, Utica, LaSalle, Peru, DeKalb, Dixon, Rachele, Normal, Champaign, Vandalia, St Luis, Pontiac, Rockford. Our goal is to make SB1 available across the states of Illinois, Wisconsin, Indiana and Michigan

1. Country Side ERP clients are underserved. This is our opinion and it probably coincides with yours. Well, there are several reasons: travel time, travel cost, lower provincial hourly rates, higher demand for discrete and process manufacturing consulting that are typically priced higher than normal CPA type of ERP functional consulting. Please consider the fact that majority of accounting system consultants and MRP software developers and data conversion specialists live closer to Chicago or Milwaukee downtowns
2. Illinois as Mid-America distribution hub. With the network of railroads and highways and being placed in the heart of Mid-West, IL businesses are positioned to be wholesale distribution hubs for USA, Canada, Mexico and international clients, especially Europe and South and Central America, Brazil, Argentina and Chile.
3. IL Country side calls and billing centers. It is common practice now when nation wide hospitals and healthcare organizations hire local IL residents to serve as their customer support
4. Light, Mid-size and heavy Production. If we move down the state of Illinois, manufacturing plants are showing up with heavy manufacturing accounting needs. If you are on the tight budget, please consider SAP B1 as initial ERP option, as other MRP will be higher in software licenses and consulting implementation hours cost
5. User Training. ERP requires you entry level and decision makers training, and it should be considered as breaking through ERP implementation phase, as user resistance is a factor of MRP implementation failure percentage
6. Chicago Suburbs. Here SB1 implementation is simple and in essence a piece of cake. Schaumburg, Naperville, Lisle, Downers Grove, Elgin, Lombard, Plainfield, Joliet, Oakpark, Oakbrook, Elk Grove Village, Wheaton, Geneva, Aurora, Villa Park, Evanston, Glencoe, Northbrook, Glenview, Lake Forest, Lake Geneva - these are the places where SB1 installation, initial balances and implementation should be as smooth as purchasing merchandise in retail stores
7. Indiana and Wisconsin. When we are talking about implementing SB1 in Indianapolis, South Bend, Madison, Baraboo, Green Bay, Port Washington, Manitowoc, we are talking about some additional travel and lodging cost. The same is applicable to Detroit, Ludington, Grand Rapids, Michigan City, Gary, New Holland.

Alba Spectrum Group, <http://www.albaspectrum.com> [help@albaspectrum.com](mailto:help@albaspectrum.com) 1-866-528-0577, serving USA and Canada nationwide: CA, NY, GA, IL, IN, SC, FL, NC, AZ, OH, MI, NC, TX. For 2008 we offer promotion to country site businesses - we'll send our Sales Engineer who will make custom presentation and sales cycle, and implementation Consultant onsite at no cost for you, assuming lump sum rapid deployment and user training.
