**Metal Spacers Now Easier To Find With Spirol Rapid Search**

*Spirol has made finding, configuring, pricing and ordering metal spacers that meet application requirements fast and easy with Rapid Search for Metal Spacers.*

**/24-7PressRelease/** - April 16, 2008 - **Spirol**, a leading manufacturer of innovative fastening and assembly solutions, has launched Rapid Search for **Metal Spacers**, a new online component configuration tool. Located at [www.spirol.com/metalspacers/](http://www.spirol.com/metalspacers/), Rapid Search for Metal Spacers makes finding, configuring, pricing and ordering standard metal spacers to meet your specific application requirements fast and easy.

**Metal Spacers** replace cut-off tubing, tubes, ferrules, grommets and turned parts. The most typical application uses the metal spacer to separate two components. The assembly is joined by a screw dropped through the inside diameter of the spacer.

Additional information on Spirol Metal Spacers is available at [www.spirol.com/metalspacers/](http://www.spirol.com/metalspacers/).

**About SPIROL**

SPIROL International Corporation is a manufacturing and value-added engineering company with over 60 years of dedicated experience providing the best engineered fastening components and assembly solutions for tens of thousands of applications. Headquartered in Danielson, Connecticut, USA, SPIROL companies can be found in four of the United States and five countries across North America, Europe and Asia. There are ten manufacturing and sales facilities and several full service distribution facilities, giving SPIROL a unique vertical position in today's dynamic fastener market place.
