**Compression Limiters Now Easier To Find With Spirol Rapid Search**

*Spirol has made finding, configuring, quoting and ordering compression limiters that meet application requirements fast and easy with Rapid Search for Compression Limiters.*

/24-7PressRelease/ - April 23, 2008 - **Spirol**, a leading manufacturer of innovative fastening and assembly solutions, has launched Rapid Search for **Compression Limiters**, a new online component configuration tool. Located at [www.spirol.com/compressionlimiters/](http://www.spirol.com/compressionlimiters/), Rapid Search for Compression Limiters makes finding, configuring, pricing and ordering standard compression limiters to meet your specific application requirements fast and easy.

**Compression Limiters** protect plastic components of an assembly from the compressive loads generated by the tightening of bolts.

Split seam compression limiters are produced from carbon steel in heat-treated and non-heat-treated versions. Solid knurled compression limiters are produced from brass. Since these compression limiters are designed to meet specified proof loads, the dimensional specifications are different. The split seam design has a lead to facilitate insertion. The solid design has a pilot, allowing it to stand freely in the hole prior to complete installation.

More information on Rapid Search for Compression Limiters is available at [www.spirol.com/compressionlimiters/](http://www.spirol.com/compressionlimiters/).

SPIROL International Corporation is a manufacturing and value-added engineering company with over 60 years of dedicated experience providing the best engineered fastening components and assembly solutions for tens of thousands of applications. Headquartered in Danielson, Connecticut, USA, SPIROL companies can be found in four of the United States and five countries across North America, Europe and Asia. There are ten manufacturing and sales facilities and several full service distribution facilities, giving SPIROL a unique vertical position in today's dynamic fastener market place.
