ECL Software Announces Expansion of Management Team

Former "Big 4" Management Consultant Joins ECL as Director of Operations.

/24-7PressRelease/ - HUNTINGTON BEACH, CA, April 23, 2008 - Huntington Beach-based risk management software company ECL Software adds a new member to its management team - Director of Operations, Asia Bribiesca. ECL Software is proud to welcome Bribiesca, a dynamic professional who will help guide the Company's launch of a new web-based fund control product and extensive growth initiatives.

"Asia is a tremendous asset to the ECL team" said President and CEO, Joseph Patterson. "Her extensive knowledge and experience adds to ECL's management strength and her passion elevates the enthusiasm of our skilled entrepreneurial culture."

As Director of Operations for ECL Software, Bribiesca is charged with overseeing and driving the company's growth objectives, including launching a new web-based product for the banking, construction and subcontractor community that provides tight controls over fund disbursement for building construction projects. She brings over 12 years of operations, planning, and project management experience, as well as business strategy to ECL Software.

"Asia Bribiesca is the right person to help deliver ECL's breakthrough products to a marketplace that is increasingly in need of risk management assistance" asserts Fred Shemirani, CFO.

Prior to joining ECL, Bribiesca provided professional Management Consulting services through Software Management Consultants Inc and previously through Cap Gemini, a "Big Four" global consulting firm. Her business experience has afforded her the opportunity to provide value to some of the most prestigious firms across industries including Disney, Nissan, Catholic Healthcare, Sempra Energy, the City of Los Angeles, and Farmers Insurance Group to name a few, as well as several years managing her own companies.

Bribiesca holds both a Master of Business Administration degree and a Master of Public Administration degree from the University of Southern California, where she served as President of the Association of Graduate Business Students. Her undergraduate studies include a Bachelor of Science in Business Management degree from Pepperdine University.

About ECL: Eclectus, Inc. (dba ECL Software) develops award-winning risk mitigation solutions for all aspects of the Construction Industry; Banks and Commercial Lenders look to Fund Control (FC) and Fund Control on the Web (FCW) as a comprehensive construction lending solution, while Contractors and Subcontractors benefit from ECL's Construction Management Information System (CMIS) package. ECL's powerful Software solutions reflect its founders' 28 years of building industry and computer software innovation experience. For more information contact (800) 625-5972 EXT: 212
