ASHLEY TUTORS EDUCATES ALL AGES IN ALL SUBJECTS

Ashley Tutors helps students earn better grades and build confidence

/24-7PressRelease/ - MONTGOMERY COUNTY, MD, April 30, 2008 - Ashley Tutors (www.ashleytutors.com) launched in October 2007, offers one-on-one in-home academic tutoring to Washington, D.C. area students in grades kindergarten through 12. While other tutoring centers use their own curriculum and parents must travel to their location, Ashley Tutors develops unique, individualized strategies to meet the needs of each of its students in the comfort of their own home.

Ashley Tutors team member Dave Trachtenberg, an American University senior, has taken on every student with amazing zest and success since he joined Ashley Tutors in January. Trachtenberg, who specializes as a reading tutor, has helped his students succeed in subjects from college level English, to high school chemistry, and even confidence building. For Josh Chernikoff, the Ashley Tutors team member who sings Trachtenberg's praises to new clients, Trachtenberg's success is no surprise to him.

"Dave's years of teaching experience, and especially his training at the prestigious Lab School of Washington, made him a perfect candidate to join our team," said Chernikoff. "Not only has he served as a mentor and tutored students before, Dave has helped teach and supervise students with ADD, OCD, tourette's syndrome, dyslexia, and behavioral problems. Dave is one of our strongest reading tutors, but he can tutor anything from writing, to arithmetic, to the right attitude."

The parents of Trachtenberg's students saw almost instant success. "In only three weeks I think my son has already made great progress with his instructor Dave," said Rhonda Shore, a parent of a student at Murch Elementary School in Washington, D.C. "He is thinking through his answers a bit more thoroughly, his handwriting is neater, and he is becoming more confident."

This special rapport Ashley Tutors develops with their students already has supporters from Bethesda to Gaithersburg. "Ashley Tutors really identifies the strengths and needs of each student," said a Great Seneca Creek Elementary School parent.

"I watched Ashley Tutors work wonders for my son," said a Bethesda Chevy Chase High School parent. "His grades are up and so is his confidence in and out of the classroom."

ABOUT ASHLEY TUTORS: Ashley Tutors is an in-home one-on-one tutoring service covering all subjects offered to students in grades Kindergarten through 12 in Montgomery County, Maryland. Ashley Fagel, a Maryland certified teacher advises Ashley Tutors, has developed the kinesthetic teaching methods for each tutor to utilize.
