**Web Stockbridge Consultants Group Uses E-mail Marketing Technology for Missing Children**

*Web Stockbridge Consultants, a local web development and internet marketing firm, is using its e-mail marketing technology for the greater good of the national community. Currently, Web Stockbridge Consultants is offering a free service for missing children or person.*

/24-7PressRelease/ - MADISON COUNTY, NY, April 30, 2008 -- Web Stockbridge Consultants, a local web development and internet marketing firm, is using its e-mail marketing technology for the greater good of the national community. Currently, Web Stockbridge Consultants is offering a free service for missing children or person. By utilizing e-mail marketing technology, they are able to distribute a missing children's information to millions people in the United States alone.

With the information given by the local authorities about the missing child and photo, the design team at Expedite can create an HTML message and send out a mass e-mail distribution to about forty to fifty million people nation wide. The service is completely free of charge, and there is absolutely no branding or advertisements on the message when it is sent out. The initial purpose of this is to create a mass awareness in a short amount of time. With Expedites' e-mail technology they can distribute a missing child's information across the nation within twenty-four hours.

Web Stockbridge Consultants hopes that by utilizing this service, someone hopefully might have seen that missing child. Web Stockbridge Consultants Media Group believes that every little thing is important, and for something as critical as a missing child, anything to help create awareness can help. If you know anyone that might need this service, please contact us and ask to speak with an e-mail marketing representative.
