**Avian Flu (Bird Flu) H5N1 Virus Continues to be a Threat to the World**

*Information Disaster Expert to be Interviewed May 5th on The Infectious Disease Hour only on Radio Sandy Springs - America's Web Radio*

**/24-7PressRelease/** - SANDY SPRINGS, GA, May 02, 2008 - Scott McPherson, Senior Moderator for FluTrackers.com for 2 years, Chief Information Officer for the Florida House of Representatives, recognized national expert in Information Technologies and Disasters. Was the Chief Information Officer for the Department of Corrections for the State of Florida previously, and has made presentations on Pandemic and Information Technology to the National Association of County and City Health Officials, the State University System of Florida, the University of Illinois, the U.S. Department of Justice, and the National Institute of Corrections.

Scott will be interviewed Monday evening between 4 and 5 PM EDT and the show in its entirety will be replayed at 7PM EDT exclusively on Radio Sandy Springs, [www.radiosandysprings.com](http://www.radiosandysprings.com) all America's Web Radio.

In their continuing effort to inform the public to the potential Avian Flu Pandemic Radio Sandy Springs features guest from Dr. David Nabarro of the United Nation, Sharon Sanders of FluTrackers.com, Dr. Pat O'Neal and many other experts to help citizens across the country understand and prepare for the most potentially devastating pandemic since 1918. Please listen, download, tell family, friends and neighbors to listen and start planning.

While the media is doing little at the moment your government is! Radio Sandy Springs for over two years now has said check for yourself and here is a website that re-enforces the truth and what the potential pandemic can mean in deaths and destruction of the world economy. <http://www.pandemicflu.gov/>

Radio Sandy Springs is the only radio station in the US giving an hour a week to the potentially most devastating event in history - the potential H5N1 Avian Flu Pandemic. With the hope that before mutation to humans and human-to-human transmission that researchers work around-the-world will find a vaccine to prevent or lessen the virus.

Please tune in 1620 LPAM, [www.radiosandysprings.com](http://www.radiosandysprings.com)

Prepare for the Potential Avian Flu Pandemic by listening Mondays at 4 and 7 PM EDT to the Infectious Disease Hour only on [www.radiosandysprings.com](http://www.radiosandysprings.com).
