Audio4fun.com Creates Movie Studio! Releases Two Movies With More to Come.

Audio4fun.com has made a brave foray into the movie business by releasing two new tutorial videos. The videos are the first in a new series designed to help the 4 million people who have downloaded Music Morpher master it quickly and easily.

/24-7PressRelease/ - NICOSIA, CYPRUS, May 03, 2008 - Audio4fun.com has made a brave foray into the movie business by releasing two new tutorial videos. The videos are the first in a new series designed to help the 4 million people who have downloaded Music Morpher master it quickly and easily.

"Books are great, but for learning quickly, a video is hard to beat," said Louise Anderson, Music Morpher's Brand Manager. "Most people are on broadband now so adding training videos is the next logical step in making Music Morpher more accessible". The videos are available free-of-charge from www.musicmorpher.com as well as [www.youtube.com](http://www.youtube.com/user/avnexers) (<http://www.youtube.com/user/avnexers>).

"Music Morpher Gold's comprehensive on-line text manual will still continue to be available and updated regularly, despite the addition of the videos," said Ms. Anderson. "The videos and the manual together make for a great way to learn, and add value for our customers."

Music Morpher Gold is the latest version of audio4fun.com's award-winning audio workstation. The software provides home users with all the tools found in a modern recording studio, without the complexity and cost. It is available for download now from most download sites including www.audio4fun.com, www.musicmorpher.com, and www.download.com.

About AVnex Ltd.:

Throughout many years of development, AVnex Ltd. has been promoting audio and video software technologies and specializing in three core areas: Audio and Video Morphing Algorithms, Audio and Video Stream Interception, Audio and Video Real Time Effecting.
