TOPEX latest products presented for the first time in Romania at CERF Bucharest 2008

For the fourth consecutive year TOPEX announces its presence at the 17th annual edition of CERF - International exhibition and conference, produced by Expotek during 7 and 11 of May.

/24-7PressRelease/ - BUCHAREST, ROMANIA, May 07, 2008 - After the recent launch from Mobile World Congress Barcelona, TOPEX will be presenting its latest products, for the first time in Romanian market, during CERF Bucharest, the Romanian largest fair which presents digital IT and communications solutions for business and consumers.

TOPEX VoisTel, TOPEX VoiBridge and TOPEX VoxiPlus are designed for small medium business environments and they are available in multiple configurations depending on the customer needs of investments, security and simplicity, satisfying in this way the most demanding users. These products enable the customer to quickly deploy VoIP services with low entry costs and fast return on investment.

TOPEX will also propose for this event its pivot direction for 2007 the Bytton router. TOPEX HSDPA Wireless Broadband Router is a professional multitasking device that offers one voice line (telephone or exchange) connectivity and internet access for a local computer network. It serves also as a VPN Router with powerful Firewall, LAN Server and Video Surveillance Server. The router acts as a voice cost optimizer tool for fixed to mobile calls with Least Cost Routing capability.

"By launching these products we show once again that we are able to tailor our offerings to meet the specific needs of today's highly competitive telecoms market.", said Mr. Constantin Dumitrescu Sales and Marketing Director TOPEX. "We are glad of the opportunity to showcase these new products during CERF 2008 as we consider this exhibition facilitates networking for leading industry delegates, making it an excellent and a unique platform for generating new business, the perfect environment where companies exchange ideas and contacts.", added Mr. Dumitrescu.

The 17-th annual edition of the International Expo & Conference on IT & Communications CERF will be held between May 7 and 11, at Romexpo Exhibition Centre, Bucharest.

During this event you can learn more about TOPEX products and solutions visiting booth 6095, in Hall 16-17, Communication pavilions gathering major telephony operators, data transfer and Internet service providers, communications and solutions providers.
