**Satin Wedges Receive prestigious 2007 "Best of the Best" Product Category Award by PGA Tour Partners**

*Feel Golf Company, a private company whose clubs and grips are performance designed by PGA Professionals, announced today that it received PGA Tour Partners' Product category award for its Satin "Dart Throwers" wedges as the best wedges for 2007 from among all wedges tested.*

**/24-7PressRelease/** - May 07, 2008 - With the boom in equipment technology over the past few years, more golfers are looking for reviews from their peers to see if the product performs to the manufacturer's claims. Herein lays the heart and soul of the PGA Tour Partners Club Product Test Program. In 2007, the Partners Club tested 37,683 products worth over \$523,000. Club Members tested a full variety of products ranging from Drivers to putters to golf balls to accessories and more.

"Obviously, we are very pleased to receive yet another highly sought industry award on our Feel wedges," stated Lee Miller, PGA Member, Founder & CEO of the Company. "PGA Tour Partners are well known for their testing objectivity as the test scores are the result of their individual Club Members testing a manufacturer's product. Club members include golfers of all skill levels - so the rating is based on a broad spectrum of golfers and not just a small group within a narrow handicap range."

Greg Cottingham, PGA Member & Director of Manufacturing for Feel Golf, stated the award is the third industry award Feel Golf has received on its wedges in 2007 alone. "Our innovative 73° wedge received Golf Illustrated's "Baggy Award" as the " most innovative product to improve a golfer's game in 2007" along with additional recognition of our entire Satin line of wedges by another independent testing authority earlier this year. I believe we have now received over 12 significant industry awards on our wedges throughout the past years. This not only makes us very proud, but also highlights the fact our wedges really do have incredible "feel" and that golfers - whether Tour Players or the weekend golfer, have come to value their uniqueness, high quality and playability."

**Wedge Genesis**

Feel Golf's line of wedges was designed on the PGA tour in the late 1980's, and has been used by many top name players over the past 2 decades. With its unique patented design, the "Dart Thrower" wedges have been instrumental in winning many tournaments worldwide, including the US Amateur and the Mid Amateur.
